D Developing and Disseminating Knowledge	rch (CESR) The Center for Effectiveness & Safety Research enhances opportunities to answer questions about which interventions work best for whom across all of KPs regional centers by investing in the ongoing development of a common data model, convening researchers and organizational leaders at an annual meeting and via webinars, and by conducting research. The center routinely partners with investigators in KPs regional research centers and with selected operational analytical groups D 1 1 3. The Utility for Care Data Analysis (UCDA). The Utility for Care Data Analysis (UCDA) was created to ensure that analysts and resear chers throughout Kaiser Permanente are able to fully realize the analytical potential of K aiser Permanentes enterprise-wide information systems. This allows experts to compile and compare clinical and utilization data from across Kaiser Permanente in order to assess pat terms in health, health care delivery, and clinical quality. UCDA has developed tools for using geographic information systems and providing analytic support for Community Benefit, including the Community Health Needs Assessments D 1 1 4. The Kaiser Permanente Research Bank. The Kaiser Permanente Research Bank is a research resource designed to help the organ ization better understand how peoples health is affected by their genes, behaviors and the environment. It allows researchers to use DNA and other health information voluntarily provided by a diverse cross-section of KP members to study how genetic and environmental fac tors affect health, and look for new ways to diagnose, treat and prevent certain diseases. KP has set a goal to collect data from a total of 500,000 participants from all seven regional centers, which would make it one of the worlds largest and most diverse repositories of genetic, environmental and health data. To date, more than 250,000 members from four geographic regions, including Northern and Southern California have participated in bio-ban king efforts. D 2. Educational Theatre Programs (ETP) Conf

In Hawaii, KFHP, Inc. supported an Educational Theatre Program which held 45 even ts in 2016, including performances and workshops. More than 20,000 people were reached through these events. Kaiser Foundation Health Plan, Inc. in Hawaii helped fund the Performing Arts Center of Kapolei and Castle High School Performing Arts in order to bring live the atrical performances to schools and communities to inspire children, teens, and adults to make informed decisions about their health and to build stronger, healthier neighborhoods. Rather than using professional actors, the Educational Theatre Program troupe in Hawaii is proudly made up of high school students from Castle and Kapolei high schools. Through this unique model, the young actors become knowledgeable and passionate about health issues through the process of rehearsing and performing a production. They are also viewed as health education ambassadors within their schools and communities and are able to competently educate their peers on certain issues. D.3. Health Professional Training In 2016, KFHP, Inc. of Hawaii invested \$223 thousand in health professional education programs. These prog rams provide training and education for nurse practitioners, nurses, radiology and sonogra phy technicians, physical therapists, post-graduate psychology and social work students, pharmacists, and other non-physician health professionals. At a time when college tuitions are rising and financial aid is diminishing, KFHP, Inc. in Hawaii responded to the continuing need for diversity and growth in the number of students pusuing nursing careers.
