KAISER FOUNDATION HEALTH PLAN, INC. 94-1340523 December 31, 2006

STATEMENT PART III FORM 990, PART III - STATEMENT OF PROGRAM SERVICE ACCOMPLISHMENTS

Kaiser Foundation Health Plan, Inc. (Health Plan) is a California not-for-profit corporation organized for the public benefit and generally exempt from income tax under Internal Revenue Code Section 501(c)(3), and comparable state statutes, for the purpose of providing hospital based health and medical care services. The Internal Revenue Service made the initial determination of Health Plan's exempt status effective June 2, 1949, under Section 101(6) of the Internal Revenue Code of 1939. Such Section is the predecessor of Section 501(c)(3) of the Internal Revenue Code of 1986. Health Plan is listed in IRS Publication 78, Cumulative List of Organizations Exempt From Tax.

Health Plan shares a common board of Directors with Kaiser Foundation Hospitals (Hospitals) and three affiliated Health Plan subsidiaries. Two additional health plans with community based boards are affiliated with Health Plan. Health Plan is the principal controlling member of the five operating subsidiary health maintenance organizations in the integrated health care delivery system commonly known as "Kaiser Permanente." Each of these member organizations is also generally exempt from Federal income tax under the provisions of Internal Revenue Code Section 501(c)(3).

Kaiser Permanente is an integrated health care delivery system that in 2006 served over 8 7 million members in the following states; California, Hawaii, Oregon, Washington, Colorado, Georgia, Ohio, Maryland, Virginia and the District of Columbia. It is the largest private prepaid health care program in the United States with approximately 147,000 employees and approximately 14,000 full-time equivalent physicians in the affiliated dedicated physicians practice groups.

Hospitals owns and operates hospitals in California, Hawaii, and Oregon. These hospitals provide services to all persons in the communities in which they are located. These services are made available to members of the community regardless of race, sex, religion, national origin or ability to pay. In addition, Hospitals provides for and/or arranges for hospital based care, extended care and home health care to the approximately 8.7 million individual members of Kaiser Permanente.

Emergency rooms located within hospital facilities owned and operated by Hospitals are available to the public on a non-discriminatory basis. The policy of Hospitals is that all persons who present themselves to an emergency room in a hospital owned and operated by Hospitals will be evaluated by an appropriately trained nurse or physician. Depending on the person's medical condition, they will be stabilized and referred or transported to an appropriate facility, or if medically appropriate, they will be admitted into the hospital for treatment.

Hospitals provides a financial assistance program to assist persons who cannot afford hospitalization and/or medical care. Hospitals also sponsors activities and programs to support the general health education and condition of the members of the communities in which the hospitals are located.

Please see the attachment, "Kaiser Permanente Community Benefit Report for Kaiser Foundation Health Plan, Inc. for 2006." This report will provide a description of activities conducted by Health Plan in the accomplishment of its exempt purposes and for the benefit of the community in which it conducts its activities

2006 COMMUNITY BENEFIT REPORT KAISER FOUNDATION HEALTH PLAN, INC.

Kaiser Foundation Health Plan, Inc. (KFHP), with its five principal operating tax-exempt subsidiary health plans—Kaiser Foundation Health Plan of Colorado; Kaiser Foundation Health Plan of Georgia, Inc.; Kaiser Foundation Health Plan of the Mid-Atlantic States, Inc., Kaiser Foundation Health Plan of the Northwest, and Kaiser Foundation Health Plan of Ohio—as well as Kaiser Foundation Hospitals (KFH), are nonprofit corporations that are part of the integrated health care delivery system known as the Kaiser Permanente Medical Care Program or "Kaiser Permanente"

This report describes the structure of Kaiser Permanente and documents the National Community Benefit activities, programs and services of KFHP, its subsidiaries, and KFH, combined as well as the specific community benefit provided by KFHP and KFH in California and Hawaii.

In 2006, Kaiser Permanente served 8 6 million people in nine states. California, Colorado, Georgia, Hawaii, Maryland, Ohio, Oregon, Virginia, Washington and the District of Columbia. This program is the largest private nonprofit health care program in the United States with 126,347 full time employees, more than 13,000 physicians and 119 dentists. In California, KFHP and KFH served 6 5 million members, with nearly 104,000 full time administrative, clerical and technical employees, as well as 10,655 Permanente physicians representing all specialties. KFHP and KFH in Hawaii served approximately 223,284 members, and has 3,902 full time employees and 378 Permanente physicians.

Kaiser Permanente is an integrated health care delivery system that combines the provision and financing of health care services. People who elect to enroll in a Kaiser Permanente health plan receive a full range of prepaid health care services, including hospital care, professional care in hospitals and physicians' offices, x-ray and laboratory services, physical therapy, emergency, ambulance transportation, preventive services, health education and certain prescribed drugs. More comprehensive drug coverage is also provided through a separate coverage rider.

In California and Hawaii, Kaiser Permanente is comprised of five separate legal organization's. KFHP, a California nonprofit public benefit corporation exempt from federal income tax under Internal Revenue Code §501(c)(3), KFH, a California nonprofit public benefit corporation exempt from federal income tax under Internal Revenue Code §501(c)(3); The Permanente Medical Group, Inc , Southern California Permanente Medical Group, and Hawaii Permanente Medical Group, Inc (collectively, "Permanente Medical Groups"), each of which is a separate, independent multi-specialty group of physicians

Persons enroll in Kaiser Permanente through KFHP or one of the Health Plan subsidiaries or "Health Plan" Health Plan provides and arranges comprehensive health care services for members on a predominantly prepaid basis and fulfills its contractual obligations to groups and individual members by contracting with KFH and a Permanente Medical Group to provide the required health care services

Members receive services from various Permanente Medical Groups in the respective Kaiser Permanente regions. The Permanente Medical Groups accept responsibility for professional care of Health Plan members and are responsible for their own physician recruitment, selection and staffing; they are legally separate entities independent from Health Plan, KFH and each other. The Permanente Medical Groups generally treat members in facilities owned, leased or contracted by KFHP or KFH.

KFHP and KFH are separate corporations governed by identical boards of directors. KFH accepts responsibility to provide or arrange necessary hospital services and facilities for Health Plan members. KFH owns and operates 28 licensed hospitals, including three licensed hospitals with multiple campuses in California, Hawaii and Oregon, which provide emergency and inpatient services to all persons in the community. Staff privileges are available on a nondiscriminatory basis to physicians in the communities served. KFH also contracts with other community hospitals to provide hospital services to members for specialized care and other services.

In California, KFH medical centers are located in the cities of Anaheim, Baldwin Park, Bellflower, Fontana, Fremont, Fresno, Harbor City, Hayward, Los Angeles, Manteca, Oakland, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Rafael, Santa Clara, Santa Rosa, Santa Teresa, South Sacramento, South San Francisco, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills In Hawaii, the Moanalua Medical Center is located in the City of Honolulu on the island of Oahu

Services provided by KFH and membership in Health Plan are available without regard to sex, race, religion, ethnic background, sexual orientation, occupational status, or income level. Health Plan members are broadly representative of the various ages, social, and income groups within the areas served. Once enrolled, a member is free to maintain membership regardless of age, health status, or employment.

KAISER PERMANENTE'S COMMITMENT TO THE COMMUNITY

Through the Kaiser Permanente mission, the organization contributes to the health of the communities in two related ways. First, Kaiser Permanente strives for excellence in serving its 8 6 million members, through market-leading performance in quality, service and affordability. By doing so, Kaiser Permanente provides a discipline in the marketplace by demonstrating meaningful value, and affordability, and generating resources to reinvest in the communities' health

Second, Kaiser Permanente directly invests in improvements to community health by working to increase access for the underserved, disseminating care improvements, altering the social determinants of health, educating healthcare workers and consumers, and informing public policy

This latter approach, which Kaiser Permanente calls Direct Community Benefit Investment (DCBI), is fundamental to being a nonprofit organization. It embodies the organization's commitment to improve the health of communities, beyond services to Health Plan members. It is more than traditional corporate citizenship or corporate philanthropy. It is an intentional, planned, budgeted, measurable, accountable creation for better health in our communities. It is done in collaboration with, not in isolation from, the community. DCBI serves to fulfill Kaiser Permanente's social purpose, justify its tax-exempt status, and differentiate it from other health care organizations.

This tradition of community benefit dates from the earliest days of the Program, when charitable care to non-employees, and later, nonmembers, was initiated. That heritage has continued through the years in Kaiser Permanente's early participation in publicly financed programs such as Medicaid and Medicare, establishment of residency training and medical research programs, and later in the development of the Educational Theatre, Safety Net Partnerships, Community Health Initiatives and Charitable Coverage programs

In 2001, the Board reaffirmed DCBI as a national program and set the following four goals

- Address critical questions in American health care that the Program's history, culture and competencies position it uniquely to examine.
- Build the reputation of Kaiser Permanente for its leadership in helping to solve major health challenges
- Create a program that engages the creativity and spirit of the people of Kaiser Permanente at all levels
- Meet the requirements placed on KFH, KFHP, and its subsidiary health plans, as tax-exempt organizations that return value to the communities served beyond the provision of health care to members

The Board directed that this new DCBI program be guided by a national strategy, with continued local flexibility and implementation. The program is supported by national and regional funding pools, and built on the organization's integrated healthcare system. Community benefit investments are concentrated in four areas.

- Vulnerable Populations Address the financing and delivery problems of populations that are vulnerable due to socioeconomic status, illness, ethnicity, age, or other disabling factors
- Evidence-based Medicine Develop and communicate the evidence base to determine what form of
 medical care works, for which patients and populations, under what circumstances, at what cost and
 in which delivery settings
- Education Evaluate and demonstrate educational models for the health professions in integrated
 care systems and for health care consumers in managing their own health and obtaining health care
 services
- Public Policy Develop and disseminate public policy information that reflects the interests of the nation as a whole.

The Board elaborated that at least 75% of total community benefit funding will be directed to program priorities within the four focus areas, and the remaining 25% of funding will be directed by local operations to respond to local community benefit needs and opportunities that may or may not be within the four key focus areas.

As part of the new approach, the Board approved the formation of a National Community Benefit Governance Council, and established a standing Community Benefit Committee of the Board of Directors to oversee the new program. The Board also designated a national executive of KFHP and KFH to lead Kaiser Permanente's Community Benefit Program as a full-time assignment. Raymond J Baxter, PhD is the Senior Vice President for Community Benefit, reporting to the CEO and Chairman of the Board.

COMMUNITY BENEFIT PROVIDED BY KAISER FOUNDATION HEALTH PLAN, INC.

KFHP provides comprehensive health care services on a prepaid basis through an integrated health care delivery system, available to the community as a whole. Because the Health Plan is a nonprofit organization, revenues that exceed the cost of operations and provision of care are reinvested in the Program to improve facilities and services, increase benefits, fulfill our charitable mission, and provide affordable rates rather than to pay dividends to stockholders.

KFHP provides care that emphasizes prevention, minimizes medical indigence and contributes to quality of life in the communities we serve. To best serve the community by providing affordable, comprehensive health care and support its social mission, KFHP is organized and operated as a fully integrated delivery system.

- Integrated Services and Facilities KFHP has organized and integrated the professional and physical resources required to provide comprehensive health care. In hospital-based Kaiser Permanente regions, this care primarily occurs at major medical centers, as well as at nearby outpatient medical offices owned by KFH and at medical office buildings owned or leased by KFHP. Members typically have all the services and professional care they require in one place, which facilitates a coordinated approach to care. Equipment and supporting personnel are shared and high-technology services, such as neurosurgery, open-heart surgery and cancer treatment are also centralized to facilitate development and transfer of best clinical practices among all Permanente providers.
- Group Practice Contracting Permanente Medical Groups are organized into large multispecialty group practices that take responsibility for providing comprehensive care to a defined population in facilities owned or leased by KFH or KFHP. The income that Permanente Medical

Groups and their physicians receive is in consideration of their professional medical and related services. The amounts paid to the Permanente Medical Groups are negotiated annually. By altering the direct relationship between service performed and income received, KFHP removes incentives to perform unneeded services, and encourages use of the most appropriate medical care. Group practice enhances quality and appropriateness of care for members and for the community by facilitating development and sharing of "best clinical practices" throughout the community and across the nation.

- Prepayment Generally, KFHP pays the Permanente Medical Groups a per-member payment
 on a budgeted prepaid basis that does not vary with the amount of service provided
 Permanente Medical Group physicians are generally not compensated on a fee-for-service basis
- Benefit Plans KFHP offers a variety of coverage options that provide for unlimited hospital days, physician visits, preventive services, immunizations, well-baby care and prenatal care. In order to maximize affordability and encourage people at different income levels to purchase coverage, KFHP offers a variety of cost-sharing options. Comprehensive, prepaid coverage with differing levels of premium and cost-sharing minimizes financial barriers to care, promoting early consultation, detection and treatment of disease. KFHP actively encourages members to maintain their health through regular preventive self-care.
- No Pre-Existing Condition Exclusions Pre-existing condition exclusions allow carriers to exclude from coverage care for a condition that existed before enrollment with the carrier. KFHP imposes no pre-existing condition exclusions for group members and thereby provides substantial protection for new members who are ill at the time of enrollment. KFHP offered health benefits coverage in all its markets without any pre-existing condition exclusions for many years prior to recently enacted federal and state statutes prohibiting pre-existing condition exclusions in certain markets. By ensuring that all our enrollees are covered for all their medical needs, we reduce the amount of uncompensated care, promote the health of our members, and prevent medical indigence.
- Participation in Medicare KFHP has participated in Medicare since it was first implemented in 1965 In 2006, KFHP and its subsidiaries enrolled approximately 893,400 Medicare beneficiaries, providing Medicare Part A and Part B services, plus additional drug, optical, and inpatient coverage.
- Participation in Medicaid KFHP began enrolling Medicaid beneficiaries in the mid-1960s
 Currently, KFHP and certain subsidiaries provide care to more than 148,400 Medicaid managed care members and in addition serve a large number of Medicare and Medicaid patients on a fee for-service basis KFHP also participates in the State Children's Health Insurance Program
 (SCHIP), serving an additional 112,360 children in 2006

THE COMMUNITY BENEFIT PROGRAMS IN CALIFORNIA AND HAWAII

In 2006, Kaiser Permanente spent approximately \$807 million or approximately 2 3% of revenue, to support the Community Benefit Programs in the communities. In California and Hawaii, KFHP and KFH spent \$716 million, of which \$348 million is allocable to the health plan and another \$368 million is allocable to hospitals. A breakdown of the 2006 DCBI dollars attributable to KFHP and KFH nationally is described in Attachment A, and those dollars attributable to KFHP and KFH in California and Hawaii in Attachment B.

The following identifies many of the signature community benefit programs and services funded by both KFHP and KFH in California and Hawaii, grouped according to the national focus areas

VULNERABLE POPULATIONS

KFHP and KFH in California and Hawaii expended approximately \$623.5 million to address the financing and delivery of health care for populations vulnerable due to socio-economic status, illness, ethnicity, age

or other factors in 2006. Of that amount, \$347 million is attributed to KFHP and \$276.5 million is attributed to KFH. A complete description of the DCBI attributable to KFHP and KFH in California and Hawaii is described below.

MEDICAL CARE SERVICES

In California and Hawaii, KFHP and KFH provide medical care services for vulnerable populations in many ways. These include charitable care programs, participation in public programs for low-income individuals such as Medicaid and the State Children's Health Insurance Program (SCHIP) KFHP provided services and coverage valued at \$343 million and KFH contributed an additional \$252 million for under- and uninsured residents in California and Hawaii.

Charitable Care (Medical Financial Assistance and Charitable Coverage)

KFHP and KFH provide charity care to low-income vulnerable populations through the Medical Financial Assistance and Charitable Coverage Programs.

Medical Financial Assistance (MFA)

KFH contributed \$39 5 million and KFHP contributed \$3.4 to assist patients with limited or no resources to pay for care provided in Kaiser Permanente facilities. Each hospital-based region offers financial assistance to help families and individuals that are unable to meet all or part of the cost of medical care on an immediate and nonrecurring basis. Kaiser Permanente expanded its charity care program to include discounted charges for uninsured patients below 400% federal income guidelines and aligned contracted collection agency practices with Kaiser Permanente social values. The amount reported under this category is only part of the funds spent by KFH and KFHP for the poor and uninsured. The organization's commitment to charitable care is also reflected in a variety of other programs and initiatives such as the Charitable Coverage Programs, and grants and donations to community clinics and other safety net providers.

The MFA program in California strives to assist families and individuals that are unable to meet all or part of the cost of medical care on immediate and nonrecurring basis. The program is designed to assist as many patients as reasonably possible and is generally available to people in greatest financial need, including those experiencing unusual or unfortunate circumstances. In 2006, the program served 247,373 applicants

The MFA Program in Hawaii helps families and individuals that are unable to meet all or part of the cost of health care services and supplies. In 2006, the program served 328 patients. In addition, KFH in Hawaii provided charitable laboratory services for the Tzu Chi Free Clinic on the island of Oahu

Charitable Coverage Program

During 2006, 63,170 low-income adults and children who were not eligible for other public or privately sponsored coverage received health care through one of Kaiser Permanente's charitable coverage programs. KFHP contributed \$68 million and KFH contributed an additional \$29 million to provide subsidized care for these underserved populations.

The Steps Plan and Kaiser Permanente Child Health Plan are the specific products that form the Charitable Coverage Program in California

• Kaiser Permanente Steps Plan – The Steps Plan provided 14,031 members the opportunity to continue their health care coverage at reduced cost when experiencing financial difficulty due to job loss, involuntary reduction in work hours, legal separation, divorce or death of a spouse Typically, participants are not eligible for any public or private group health insurance plan, and have family income between 100% and 300% of the federal income guidelines. The plan is available to parents of children enrolled in AIM, Healthy Families or the Kaiser Permanente Child Health Plan as well as to individuals participating in vocational training programs offered through government, private industry councils and social agencies. The Steps Plan premium is subsidized at four levels or steps 20%, 40%, 60% and 80%. Participants are placed in an initial.

- premium step based on their current family income. They remain at the initial step for one year and are then moved to the next higher step.
- Kaiser Permanente Child Health Plan (KPCHP) The Child Health Plan provides medical and dental coverage to eligible children (birth through 18) in families with income up to 300% of the federal income guidelines who don't have access to employer-subsidized coverage and don't qualify for public programs because of family income or immigration status. Child Health Plan provides comprehensive benefits including preventive care, inpatient and outpatient services, prescription drugs, vision and dental care. Premiums are \$8 or \$15 per child per month, depending on family income, for a maximum of three children (additional children are covered free of charge). In 2006, 49,139 children received care through this program.

Participation in Medicaid and Other Publicly Financed Programs

KFHP and KFH have a long history of participating in publicly financed health programs. In 2006, \$439 million was expended (in excess of reimbursement) and approximately 250,000 people were served in government sponsored programs for low-income people in California and Hawaii Approximately \$271 million is attributed to services provided by KFHP and \$168 million is attributed to KFH

Kaiser Permanente Medi-Cal Managed Care, Medi-Cal Fee-for-Service and Healthy Families are specific government sponsored health care coverage programs in California.

- Medi-Cal KFHP enrolled 120,818 Medi-Cal (Medicaid) managed care members in California, providing nearly 49,000 inpatient days and 652,000 outpatient visits during 2006. KFHP subcontracts with local initiatives in Alameda, Contra Costa, Los Angeles, Riverside, San Bernardino, San Francisco, and Santa Clara Counties, with county-organized health systems in Napa and Solano Counties and Orange County. KFHP also contracts directly with the state of California through their Geographic Managed Care Plan for Sacramento and San Diego Counties, and through the Prepaid Health Plan for Marin and Sonoma Counties.
- Medi-Cal Fee-for-Service KFHP and KFH in California provided \$76.1 million in subsidized care to 21,128 Medi-Cal Fee-for-Service patients Of this amount, approximately \$58.1 million is attributed to services provided by KFH
- Healthy Families KFHP enrolled nearly 110,000 children in this federal and state funded insurance program that provides low- and moderate-income families with health insurance for their children under 19 years of age. The program provides comprehensive health benefits, including dental and vision care. To qualify, families must have a total income between 100% and 250% of the federal income guidelines and the children must be ineligible for Medi-Cal coverage.

In Hawaii, KFH and KFHP served both Medicaid members and Medicaid Fee-for-Service beneficiaries

Quest & Medicaid Fee-for-Service – KFHP and KFH provided care to 19,558 individuals
enrolled in Quest, Hawaii's Medicaid Program, and expended approximately \$15.5 million on
subsidized medical care services. The Hawaii Region also contributed an additional \$2.2 million
on subsidized care for Medicaid Fee-for-Service patients.

Grants and Donations for Medical Care Services

In 2006, KFHP and KFH donated \$15.2 million to 300 nonprofit and community-based agencies in California and Hawaii to support the delivery of medical care by community providers. The following are examples of programs and organizations funded by KFHP and KFH

KFH in California provided \$198,972 to the California Primary Care Association to develop
solutions for greater access to specialty care for uninsured patients who get their primary care
within non-profit community clinics and public hospitals and health systems. The project will
conduct a baseline assessment through a literature review to synthesize relevant research
findings to date and state-wide research to define and measure current specialty care access and
to identify successful practices among safety net providers. The project will convene relevant

stakeholders to foster discussions to increase understanding of the scope and intensity of the problem, focus attention on system change agents, and raise public awareness and visibility about the crisis. As a means to consider short and long-term strategies for addressing the issue, the project will document two to four pilot projects representing best practices in areas such as simplifying referrals, reducing patient wait times, and improving provider training. Finally, this project will publish data briefs and make presentations to raise public awareness of this issue and conduct analyses of data to explore opportunities to remove barriers

- KFH in Northern California awarded \$2.3 million among four safety net providers, Community Partnerships of Santa Clara, San Francisco Community Clinic Consortium, Community Health Center Network and Central Valley Health Network as part of their 'Core Operations, Health Information Technology Initiative, Collaboration with Public Hospital, and PHASE' pilots. The focus of this initiative is to expand the efforts of member community health centers in order to implement disease registries, expand functionality of electronic health record systems, and expand population-based care through the establishment of bridges/interfaces with commonly used laboratories and health information technology systems. An additional focus of this initiative is to develop systems to provide network-wide capacity for benchmarking population-based data for population specific quality improvement planning.
- Venice Family Clinic received \$500,000 from KFH in Southern California to expand their facilities.
 The renovation project will increase services to 57,000 patient visits per year. At least 15% of patients served by the community clinic are homeless.

COMMUNITY-BASED PROGRAMS FOR VULNERABLE POPULATIONS

KFH spent approximately \$15.1 million to provide a variety of programs to individuals who live and work in the California and Hawaii communities. The programs listed below are free and open to all community members irrespective of health insurance status.

Learning Centers

In 2006, over \$2.7 million was spent by KFH on counseling, education, and social services for disadvantaged children and their families in Southern California available through the Watts Counseling and Learning Center (WCLC) and Educational Outreach Program (EOP). WCLC provides mental health and counseling services, assistance to children with learning disabilities, and pre-employment training to high school youth, as well as operates a state-licensed preschool program, a summer day camp, and "Kids Can Cope" support groups for children dealing with siblings or parents fighting cancer EOP provides education and support services to primarily Latino youth, ages 10 to 14, of the San Gabriel Valley in East Los Angeles County The focus of EOP is to provide dropout prevention programs in a community setting Currently, EOP provides nine different programs both in English and Spanish to children and parents during after-school hours and on Saturdays

Youth and Other Employment Programs

KFH in California spent approximately \$2 million to fund youth employment programs aimed at improving education and job skills, or providing employment opportunities for targeted populations. Through the Summer Youth and INROADS programs, Kaiser Permanente employed more than 468 youth in 2006.

Grants and Donations for Community-Based Services

In 2006, KFH donated approximately \$10.5 million to 627 nonprofit and community-based agencies in California and Hawaii to support a variety of community services for vulnerable populations. The following are examples of programs and organizations funded by KFH:

 The Institute for the Study of Human Knowledge's (ISHK) Share Literacy program was awarded \$90,000 from KFH in Northern California Responding to the current nationwide school budget crisis, ISHK has launched a new initiative, 'Share Literacy,' to expand book donations. Now in its fourth year, the literacy project has touched more than 100,000 children who own or have access to books through a number of established literacy programs

- KFH in Southern California gave a \$150,000 capital campaign grant to New Economics for Women to develop a new Prosperity Center for low-income women and their families of Pico-Union/Westlake, one of the poorest Latino communities of Los Angeles. The Center is designed to provide quality, culturally-competent primary and preventive care services and will include a business growth center, a health clinic, and a wellness center. By targeting women in poverty, New Economics for Women seeks to stabilize families and the neighborhoods where they live by helping single parents learn strategies and earn resources for success and transform communities by developing strategies to eliminate poverty.
- KFH in Hawaii supported the Kalihi Valley Instructional Bike Exchange (KVIBE) program by funding the bicycle registrations required by the state. The KVIBE program funded by a Robert Wood Johnson Foundation Active Living by Design grant, partners with a local cycle shop. The objective for the program is to teach young people how to fix a bike and make repairs as needed to encourage more bike riding. The bike shop staff offer assistance in a warehouse close to public housing making repair equipment accessible. Bikes are free to anyone willing to work on repairs.

EVIDENCE-BASED MEDICINE

KFH in California and Hawaii spent approximately \$16 million to support clinical and health research activities. Kaiser Permanente conducts more research than any other non-academic institution in the United States. In 2006 Kaiser Permanente investigators in California and Hawaii participated in 1,743 research and evaluation studies, partnering with several prominent academic research institutions, including Harvard University, Oregon Health & Sciences University, Stanford University, University of California (Los Angeles, Berkeley and San Francisco), University of Southern California, University of Washington, National Institutes of Health, Agency for Healthcare Research and Quality and the Centers for Disease Control and Prevention

Clinical and Health Services Research

For more than 40 years, Kaiser Permanente researchers have leveraged modest grants financed through the community benefit program into major discoveries that have served our communities, influenced national policy, and informed medical practice throughout the nation and the world. Many of the research studies address current health issues and improve care for common conditions where treatment is often linked to community-based efforts, and are broadly disseminated through articles and professional presentations.

In California, KFH has three research departments the Division of Research (DOR), Northern California, established in 1961, Department of Research & Evaluation (R&E), Southern California, established in the early 1980s: and Kaiser Foundation Research Institute (KFRI). Two nursing research units for KFH in California also engage in studies on nursing practices, patient care, and patient outcomes in order to improve clinical practices. The Center for Health Research Hawaii (CHRH) is the primary research department for KFH in Hawaii.

CHRH, DOR, KFRI, and R&E—together with the Northern and Southern California Nursing Research Departments—spent \$12 million to helped support primary research studies, published more than 430 articles annually and present findings in medical education forums and conferences. The following is a sampling of the evidence-based studies conducted in 2006

 Study "When Human Participants in Research Complain, Ask Questions or Express Concern Protecting Vulnerable Populations in an HMO Setting"
 Data from 84 human participants from 2004-2005 was gathered retrospectively from existing records of questions, complaints and concerns submitted to the Institutional Review Board at an HMO to improve human participant education in understanding of the research process. Most (80%) of the participants had questions regarding the informed consent process, recruitment letters and risks associated with their participation in clinical trials. Monolingual Latinos and elderly participants (68%) were the most frequent callers with questions related to their understanding of the informed consent process. The difficulties vulnerable human participants encounter during recruitment and the informed consent process implicate our understanding of bioethical issues and psychological principles. There are still ways to improve vulnerable populations' participation in research which require new strategies designed to protect their health, safety and welfare

- Study Parental Perception of Neighborhood Safety and Children's Physical Activity
 The current study investigates whether parental perception of danger in one's neighborhood is
 associated with physical activity in children aged 10-12. Over 200 parent-child dyads are enrolled
 in the study. All parent/caregivers will be interviewed on the telephone and child interviews will
 be either over the phone or in-person. Interview topics include general health, physical activity,
 perception of neighborhood safety, where child spends his/her time, and extent of adult
 supervision. In addition, a subset of 25 children will wear an accelerometer for a week to assess
 physical activity. The study expects to learn how parental perception of neighborhood safety is
 associated with physical activity in children aged 10-12 and learn more about the relationship
 between children's perception of danger and their own physical activity levels and the correlation
 between objective measures of neighborhood danger and perception of danger among parents
- Study. The Work, Weight, Wellness (3W) Project
 This study is being conducted by Kaiser Permanente's Center for Health Research investigators
 in Hawaii and Northwest to test innovative worksite interventions designed to reduce obesity
 Researchers are assessing the impact of multiple environmental changes and weekly onsite
 weight management groups of body mass index (BMI), weight, health behaviors, absenteeism
 and worker's compensation claims of 12,000 hotel employees on the island of Oahu. The study
 expects to develop new insights about how employers can field workplace health promotion
 programs.

Health Sciences and Medical Libraries

KFH spent approximately \$3.5 million to support its medical libraries, and other health resource and information dissemination services. These programs give medical staff and the greater professional community access to health-related research conducted within and outside of Kaiser Permanente. Medical libraries participated in an inter-loan system with other community hospitals, supported students in training and education programs to conduct literature searches and conducted searches for community clinics and other community-based organizations on advances in medical treatment, clinical protocols and new development on specific health issues. During 2006, health sciences and medical libraries in California and Hawaii completed more than 258,000 requests for general knowledge and literature searches for research purposes

EDUCATION

In California and Hawaii, KFHP and KFH spent \$68 million to educate health care professionals and consumers during 2006

CONSUMERS

KFHP spent \$30,013 and KFH spent \$9 million on community wellness and health education programs in California and Hawaii

Community Health Education and Prevention Programs

KFH provided a variety of activities and programs to assist health care consumers in managing their health and well-being. The hospitals serve as the primary site for the dissemination of health education information to both Health Plan and community members who access these facilities through the health education centers. Other programs and services are offered in various community locations.

Community health education materials, programs, services and training sessions are designed to reach members of the community. The purpose is to improve health and prevent disease in adults, children, families and teens by conducting appropriate health education interventions and sharing Kaiser. Permanente health education resources. These programs widely disseminate over 200 Kaiser. Permanente-produced, quality health education materials, resources and services to the community. Healthphone, Healthwise Self-Care Tip sheets, Smoker's Helpline, and LiveWise Self-Care Kits are examples of the resources provided. Programs offered include Breastfeeding, HIV Prevention, Better. Nutrition and Lifestyle, Coping with Chronic Diseases, and Seniors Movement Programs. Continuing education courses and skills training sessions are provided to community health care providers. Many programs and resources are provided in partnership with community advocacy groups, community clinics, libraries, nonprofit organizations, cable television channels and schools.

Regional Community Health Education

During 2006, the Regional Health Education Departments in California and Hawaii undertook specific community focused projects and partnered with several nonprofit community agencies to provide additional services. The following are examples of community programs aimed at educating health care consumers.

- The Southern California Regional Health Education Department was the primary technical assistance provider for The California Endowment's Healthy Eating Active Communities (HEAC) Initiative, in collaboration with Kaiser Permanente's Healthy eating Active Living Initiative Regional Health Education consulted on development of intervention strategies, reviewed logic models and work plans, identified needs and shared of Kaiser Permanente current behavioral modification practices. The main projects sites included South Central Los Angeles, Baldwin Park in the San Gabriel Valley, Chula Vista in San Diego County and Santa Ana in Orange County. Each site consists of 3 major partners-a school district, a county public health department and a neighborhood group. Regional Health Education also coordinated trainings and provided participant material. The training focused on BMI screening, weight goals, brief focused advice, prevention messages, and introduction to community advocacy.
- The Northern California Region partnered with local community agencies, BANANAS, Inc ,
 Berkeley-Albany YMCA Early Childhood Services and the Community Child Care Coordinating
 Council of Alameda County to provide training on asthma management and diabetes control for
 children to childcare providers.
- "Start Steppin with Kaiser Permanente" was an event that featured a workday walk around Tamarind Park in downtown Honolulu and health fair. Over 265 participants walked twice around the 1000 step course. Volunteers held banners at every 250 steps markers and as each participant reached the markers they were rewarded with a healthy incentive such as bottled water, snack bars, fruit, lip balm, etc.

Educational Theatre Programs

Educational Theatre Programs (ETP) uses live theatre, music, comedy and drama to inspire children, teens and adults to make healthier choices and better decisions about their well-being. These educational programs were developed with the advice of teachers, parents, students, health educators, medical professionals and professional theatre artists. All performances are delivered by professional actors who are also trained as peer health educators, and performed free of charge for the community ETP also provides schools and organizations with supplementary educational materials, such as workbooks, parent and teacher guides and student wallet cards to reinforce the messages presented on stage.

KFH spent \$7 million to provide nearly 475,000 children and adults in California the opportunity to view one of the 1,879 performances during 2006. The current repertoire includes:

- The Best ME a program for grades 3-6 that helps students understand the benefits of making healthier life choices
- Zip's Great Day Musical comedy for elementary school children about making healthy choices and avoiding conflict
- PEACE Signs Conflict resolution and anti-violence program for upper-elementary school students
- Drummin' Up Peace A multi-intervention program that promotes conflict isolation to help students increase peace
- Someone Like Me a production that uses drama, music, and humor to address adolescent issues
- Amazing Food Detective Bilingual (English/Spanish) program for elementary school kids on making informed food choices and snacking in moderation to avoid obesity and its health problems.
- ARRR-STHMAI Entertaining production that focuses on dealing with childhood asthma.
- Nightmare on Puberty Street Dramatic presentation about the joys and angst of adolescence
- Secrets HIV/AIDS educational drama for high school students
- The Swashbuckling Adventures of Jaime in the World of Red, the Reading Pirate promotes the importance of literacy to students.

Grants and Donations for Consumer Education

Kaiser Permanente donated approximately \$1 2 million to support a variety of projects aimed at providing education to health care consumers

- KFH in Southern California gave a grant to Esperanza Community Housing Corporation to support the Community Health Promoters Program. The program trains 25 residents of the Adams/Hoover community of Los Angeles, a medically underserved community facing poverty, chronic health problems, low educational attainment and sub-standard housing. The 25 residents receive professional training and mentoring to provide health education and outreach to 25,000 community residents. Esperanza Community Housing Corporation created the Community Health Promoters Program in 1995, and has trained over 280 bilingual and trilingual community leaders.
- A \$200,000 grant from KFH in Northern California was given to Bay Area Black United Fund, Inc (BABUF) for the 2007 African American Health Summit. The bi-annual Health Summit provides participants with updates on African American health disparity intervention strategies, models or best practices, and create partnerships that help to reduce disparities in the health of African Americans. What began as an Alameda County effort has taken root in other Bay Area black communities, and has emerged as a broad-based coalition of community leaders, public/private agencies, service providers, and community volunteers working together to plan and implement what is now known as the Bay Area African American Health Initiative (BAAAHI)
- KFH in Hawaii continued to support the Kapiolani Poison Prevention Program (KPPP). The KPPP provides education of the importance for accidental poison prevention in Hawaii and responded to questions to more than 19,000 people. The KFH donation supported the printing and dissemination of 510,000 poison hotline stickers inserted into the front cover of local phone books. The removable stickers serve as an alert for parents and caregivers to call the new poison hotline for immediate assistance. The program has been transferred to the Hawaii State. Department of Health for on-going support and maintenance.

PUBLIC POLICY

Both KFHP and KFH recognize that public policy influences the environment in which we operate and impacts the communities we serve. In 2006, KFHP contributed \$1.3 million and KFH contributed \$843,305 to advance public policy that is beneficial to the community. The KFHP and KFH public policy strategy includes building public/private partnerships to advance population health, supporting legislation that advances expanded access, health promotion and disease prevention, as well as convening policy makers and researchers to develop knowledge-based public policy.

Institute for Health Policy (IHP)

The mission of KFHP's IHP is to advance the understanding of key health policy issues and to support, in collaboration with others, health policy that will improve health and the manner in which health care and financing systems serve the members of our communities. In 2006, KFHP contributed \$1.3 million to support a number of IHP's conferences, roundtables and policy briefings.

In December 2006, IHP convened a roundtable to discuss universal coverage proposal with key California stakeholders groups involved in efforts to extended healthcare coverage to the state's estimated 6.5 million uninsured residents. The proposal played an important role in stimulating further discussion and action in Sacramento.

Kaiser Permanente Care Management Institute

Care Management Institute is nationally recognized in defining and sharing evidenced-based approaches to improving care. During 2006, more than 50 safety net organizations participated in a day-long seminar hosted by CMI that focused on improving care for culturally diverse communities

Community Benefit staff, working with KFHP's Care Management Institute and Institute for Culturally Competent Care, is fully committed to the national objective of eliminating racial and ethnic disparities

Grants and Donations for Public Policy

KFH spent \$843,305 to support various nonprofit organizations. The following are examples of two programs funded within this category in 2006:

- KFH in Southern California contributed to Vision y Compromiso 4th Annual "Hacia Una Vida Digna y Sana" Statewide Promotora-Community Health Worker Conference in which 1,000 promotoras and community health workers from six regions across the state as well as delegations from other location in the Unites States and Mexico. The conference highlighted the opportunities for promotoras and community health workers to continue to develop their leadership skills, advocacy and build their capacity to become critical resources for the community that they serve

OTHER COMMUNITY BENEFITS

In 2006, KFH in California and Hawaii spent nearly \$6.5 million on other community benefit activities and programs beyond the national focus areas

Other Grants and Donations

Approximately \$6.4 million was spent on other community grants and donations by KFH in California and Hawaii

 KFH in Northern California donated \$1 million to Doctors Medical Center (DMC) in San Pablo to support their implementation of an electronic health record system. The funds helped DMC to complete the required IT infrastructure reconstruction to support the new enterprise-wide. information system. The new system will allow physicians to review patient's medical histories, and test results in a more timely method to improve patient-center care.

Community Giving Campaigns

In 2006, KFH contributed \$147,000 to support Community Giving Campaigns, a program-wide effort that has a direct impact on local communities. While a number of federations, including America's Charities, Black United Fund, Earth Share and United Way, and the many charities they represent, are listed in Campaign materials, the Campaign also supports a write-in option, which allows participants to donate to the non-profit 501(c) of their choice Participants can make a donation using payroll deduction or make a one-time contribution via cash, check or credit card. Kaiser Permanente underwrites all of the associated processing costs for the Campaign, so 100% of all pledges go directly to the organizations our employees and physicians choose to support.

NOTES for current and future compensation, benefits and other reimbursements.

Note #1 - This Organization is one of the corporate entities listed on Part VI, Line 80 "Related and Controlled Entities" which is included as a part of this return. This Organization is a participating member of a vertically integrated direct service prepaid health care program

Note #2 - The Officers and Directors can be contacted in care of:

Kaiser Foundation Health Plan, Inc. Program Office Controller's Department One Kaiser Plaza, Suite 15L Ordway Oakland, CA 94612

Note #3 - The executive compensation program for Kaiser Foundation Health Plan, Inc. and Subsidiaries and Kaiser Foundation Hospitals and Subsidiaries (KFHP/H) is designed to recruit, retain and motivate qualified senior management personnel. Senior management personnel have a significant impact on the strategic and policy direction and results of the organization. Therefore, the executive compensation program is, to a significant degree, performance-based The compensation program is reviewed annually by an independent committee of the Board of Directors of KFHP/H, which evaluates and approves all programs and payments to executives

Base pay for executive positions is established at a level comparable to the relevant market. In addition, other components of the compensation program bear 'at-risk' features designed to focus on strategically important performance goals and to assist in attracting and retaining top performers. The executive compensation program is targeted at the median of the comparable external market in which the organization competes for executive leadership. The compensation program focuses on objectives in the areas of quality of member care and service, financial soundness, and the community and social mission of the organization.

Note #4 - Compensation, benefit plan contributions and reimbursement for certain expenses (collectively referred to as "compensation") of Directors, Officers and Key Employees are paid by Kaiser Foundation Health Plan, Inc. (Health Plan) as common paymaster and disbursement agent for the participating member organizations of KFHP/H. Certain Directors, Officers and/or Key Employees perform services for several of the KFHP/H member organizations.

Some of the amounts shown as Compensation were actually earned in years prior to 2006. This compensation is effectively reported in Part V twice – once in the year deferred and again in the year paid. However, the compensation is only paid once. The disclosure rules mandate that significant amounts of compensation are double-counted in both 2005 and 2006. For instance, column C1 includes distributions from retirement, savings, and deferred compensation plans that were earned in prior years, and column D2 includes incentive payments scheduled for 2007 for performance goals achieved in 2006.

Note #5 – The Organization offers various benefit plans, both qualified and non-qualified. Among the benefits offered to the officers listed on Form 990, Part V-A line 75 c are a qualified Defined Benefit Plan (Plan A), a qualified Defined Contribution Plan (Plan B), a Section 403(b) Tax Sheltered Annuity Plan (TSA), a Section 457(b) Deferred Compensation Plan (CAP), and health and welfare benefit plans. Included in Benefits reported for this purpose are the value of the annual contributions to Plan B, TSA, CAP and certain health and welfare benefit plans. Estimates for 2006 accruals for future benefits under Plan A are included in column D1.

For other benefit plans available to executives which provide future benefits earned during 2006 (where the specific amounts are available and determinable by the time this tax report is filed), the amount is included in the Benefits column D1 reported in this return. Amounts determinable at year-end under termination of employment arrangements calling for future payments in a subsequent year are included in the D1 Benefit Plans column for this purpose. Individuals noted with (*) may have amounts included by reason of termination of employment and from benefit plan accounts that were previously earned.

Certain officers, directors and key employees are eligible for post-retirement medical and life insurance benefits if they meet certain eligibility requirements. Payments are not made to these post-retirement benefit plans on behalf of individuals until retirement, and thus, payments to these plans are not reported on Part V, column D. However, when the retiree benefits are actually paid, they are reported on Part V-B of the Form 990.

Note #6 - The amounts reported as Expense Account/ Other Allowance include amounts for reimbursement of expenses. Under IRS rules, ordinary and necessary business expenditures such as travel, transportation, lodging, meals, business meetings and conferences are not included here. These items are reimbursed on an accountable plan basis, consistent with policies and procedures based on prudent fiduciary responsibilities and standards. The policies under which these individuals account to the payer meet the substantiation requirements of Internal Revenue Code Section 274. This reporting includes taxable moving and relocation reimbursements and allowances.

Note #7 — The average weekly time spent on the organization's affairs during 2006 is reported based on individual records for Directors Kaiser, Chapman, Graber, Telles, Johansen, Marineau and Pei; for the other directors the time is estimated to be five hours. Actual time spent by Board member may vary based on different responsibilities during the year. Key employees, who work full-time, may work in excess of the standard 40-hour work week

Kaiser Foundation Health Plan, Inc., Kaiser Foundation Hospitals, Kaiser Foundation Health Plan of the Northwest, Kaiser Foundation Health Plan of Colorado, and Kaiser Foundation Health Plan of Ohio have the same Directors. The hours reported for outside Directors for Part V represent the total average weekly time spent by each Director on all of these organizations' affairs during 2006

The number of Directors may be changed at any time by amendment of these Bylaws by the Board of Directors. Until changed by the Board of Directors, there shall be 14 Directors. Only two Directors shall be inside Directors, one of whom shall be the Chairman of the Board of this corporation who shall serve ex officio and only so long as he or she holds such office, and one of whom shall be a senior officer of this corporation designated by the Chairman of the Board. All other Directors shall be independent Directors. Each Director, including the ex officio Director and the designated Director, shall be counted for purposes of determining the presence of a quorum and shall have one vote. Each Director of this corporation shall also serve as a Director of Kaiser Foundation Hospitals, a California nonprofit public benefit corporation ("Hospitals"). The Secretary of this corporation shall provide prompt written notice to the Secretary of Hospitals of every change in the membership of the Board of this corporation.

Section C-3. Vacancies.

A vacancy shall exist whenever a Director resigns, for any reason becomes unable to serve, is not re-elected as provided in Section C-4, is removed in accord with law, or is removed by a vote of the majority of the Directors then in office provided that the notice of the meeting of the Board of Directors indicates the purpose of the meeting. Additional vacancies shall arise whenever and to the extent that the number of Directors is increased as provided in Section C-2. At the first regularly scheduled meeting of the Board of Directors each year, upon the expiration of the term of a class of Directors, Directors of that class shall be elected for a term which shall end at the later of the first regularly scheduled meeting of the Board of Directors in the third year following their election or when their successors are elected, except that in any event the term of a Director shall end on December 31 of the year in which he or she attains age 70, unless the Chairman of the Board specifically requests a Director to remain on the Board for an interim transition period, and the Chairman of the Board, upon his or her retirement or resignation as Chairman of the Board, shall be precluded from continuing to serve as a Director. Any vacancy may be filled by a majority of the remaining Directors at any Board meeting. Each Director shall hold office until the end of his other term, or until he or she shall resign, become unable to serve as a Director, or be removed in accord with Section C-3.

Section C-5. Meetings.

- (a) <u>Place of Meetings.</u> Meetings shall be held at such place as the Board of Directors shall designate in the notice of the meeting, or if not so designated, all meetings shall be held at the principal office.

A notice, or waiver of notice, need not specify the purpose of any regular or special meeting of the Board. Notice of a meeting need not be given to any Director who signs a waiver of notice or a written consent to holding the meeting or an approval of the minutes thereof, whether before or after the meeting, or who attends the meeting without protesting, prior thereto or at its commencement, the lack of notice to such Director.
- (d) <u>Proof of Notice.</u> A statement showing service of any notice pursuant to Section C-5(c) may be entered in the minutes of the meeting, and such entry shall be conclusive evidence that notice was duly given. Any waivers, consents and approvals given in lieu of regular notice shall be entered in the minutes of the meeting.
- (e) Quorum. A majority of the Directors then in office shall constitute a quorum for the transaction of business. A meeting at which a quorum is initially present may continue to transact business notwithstanding the withdrawal of

Directors, if any action taken is approved by at least a majority of the required quorum for such meeting.

- (f) Meetings Without Notice. If all Directors are present at any meeting, or if a quorum is present and all Directors not present either (1) sign a waiver of notice of such meeting, or a consent to the holding thereof, whether prior to or after the meeting, or (2) approve the minutes thereof, the transactions of such meeting shall be as valid as if conducted at a meeting regularly noticed.
- (g) Adjourned Meetings. A majority of the Directors present at any meeting, although less than a quorum, may adjourn the meeting from time to time, without further notice, until a quorum shall attend. If the meeting is adjourned for more than twenty-four hours, notice of any adjournment to another time or place shall be given prior to the time of the adjourned meeting to the Directors who were not present at the time of the adjournment.
- (h) Participation in Meetings. Members of the Board may participate in the meeting through use of conference telephone, electronic video screen communication or other communications equipment. Section C-6. Action Without a Meeting.

Any action required or permitted to be taken by the Board of Directors may be taken without a meeting if all members of the Board individually or collectively consent in writing to such action. Such action by written consent shall have the same force

and effect as a unanimous vote of the Directors. Such written consent or consents shall be filed with the minutes of the proceedings of the Board.

Such written consent or consents shall be filed with the minutes of the proceedings of the committee.

Section E-4. Executive Committee.

- (a) <u>Composition.</u> The Executive Committee shall consist of up to seven (7) Directors, who shall be selected by the Board of Directors, and who shall continue as members of the Committee at the pleasure of the Board. Notwithstanding the above, the Directors who are independent, after consideration of all of the relevant circumstances, may determine whether a relationship is material or immaterial and whether a Director would therefore be considered independent. The Board of Directors shall document the basis for such a determination.

- (b) <u>Authority and Duties</u>. The Committee will assist the Board in fulfilling its oversight responsibility relating to (1) strategic direction and public positioning, (2) public policy, (3) tax exemption, and (4) executive compensation and succession. In addition, the Committee will have the authority to act for the Board between meetings as provided herein. c. <u>Executive Selection and Succession</u>.

- (1) Review with the CEO the selection, hiring and present performance of officers, executives, and other key personnel; and
- (2) Review management succession plans and processes for assuring development and timely assignment of individuals

- qualified to assume the responsibilities of key executive positions.

5. Acting for Board Between Meetings.

The Committee shall have authority to act for the Board between Board meetings. Unless otherwise provided by law, the Board, the Articles of Incorporation, or the Bylaws, any action taken by the Committee shall have the same force and effect as though taken by a majority of Directors present at a meeting of the Board duly called and held pursuant to the Bylaws, except that the Committee shall have no authority to:

The Committee shall annually assess and report to the Board on the performance and effectiveness of the Committee.

Section E-5. Other Committees.

The Board of Directors may establish such other committees, of such composition and with such duties, authority and manner of conducting business, as the Board may from time to time deem advisable. Each such committee shall consist of two or more Directors, who shall be selected by the Board of Directors.

ARTICLE F

INDEMNIFICATION OF DIRECTORS, OFFICERS, EMPLOYEES, AND OTHER AGENTS

Section F-1. Definitions.

As used in this Article:

- (a) "agent" means any person who: (i) is or was a Director, officer, employee, or other agent of this corporation; or (ii) who is or was serving at the request of this corporation as a director, officer, employee, or agent of another foreign or domestic corporation, partnership, joint venture, trust or other enterprise; or (iii) who was a director, officer, employee, or agent of a foreign or domestic corporation which was a predecessor corporation of this corporation or of another enterprise at the request of the predecessor corporation;
- (b) "proceeding" means any threatened, pending, or completed action or proceeding, whether civil, criminal, administrative, or investigative;
- (c) "special proceeding" means: (i) an action by or in the right of this corporation to procure a judgment in its favor; (ii) an action brought under California Corporations Code §5233; or (iii) an action brought by the California Commissioner of Corporations or the California Attorney General, or a person granted relator status by the California Attorney General, for any breach of duty relating to assets held by this corporation in charitable trust; and
- (d) "expenses" includes attorneys' fees and costs, reasonable fees and costs of consultants and experts, reasonable filing and processing charges and necessary and reasonable travel and related costs, and any expenses of establishing a right to indemnification under Section F-2 or F-5(b).

Section F-2. Agent Successful on the Merits.

To the extent that an agent has been successful on the merits in the defense of any claim or cause of action or portion thereof in any proceeding in which such agent was a party or was threatened to be made a party to such proceeding, in either case, by reason of the fact that such agent is or was an agent of this corporation, or in defense of any claim, issue, or matter therein, this corporation shall promptly indemnify the agent in full against expenses actually and reasonably incurred by the agent in connection therewith.

Section F-3. Settlements and Proceedings (Other Than Special Proceedings and Settlements Related Thereto) When Agent Not Successful on the Merits.

Upon making an affirmative determination pursuant to Section F-5, and subject to Section F-7, this corporation shall promptly indemnify any agent who was or is a party or is threatened to be made a party to any proceeding other than a special proceeding by reason of the fact that the agent is or was an agent of the corporation, against expenses, judgments, fines, settlements and other amounts actually and reasonably incurred in connection with any such proceeding, if the agent acted in good faith and in a manner the agent reasonably believed to be in the best interests of this corporation and, in the case of a criminal proceeding, had no reasonable cause to believe his or her conduct was unlawful. The termination of any proceeding by judgment, order, settlement, conviction or upon a plea of nolo contendere or its equivalent shall not, of itself, create a presumption that the agent did not act in good faith and in a manner which the agent reasonably believed to be in the best interests

of this corporation or that the agent had reasonable cause to believe that the agent's conduct was unlawful.

Section F-4. Special Proceedings When Agent Not Successful On the Merits.

Upon making an affirmative determination pursuant to Section F-5, and subject to Section F-7, this corporation shall promptly indemnify any agent who was or is a party or is threatened to be made a party to any threatened, pending or completed special proceeding by reason of the fact that the agent is or was an agent of this corporation, against expenses actually and reasonably incurred by the agent in connection with the defense or settlement of such a proceeding if the agent acted in good faith, in a manner the agent believed to be in the best interests of the corporation and with such care, including reasonable inquiry, as an ordinarily prudent person in a like position would use under similar circumstances.

No indemnification shall be made under this Section:

- (a) With respect to any claim, issue or matter as to which the agent shall have been adjudged to be liable to this corporation in the performance of the agent's duty to this corporation, unless and only to the extent that the court in which such proceeding is or was pending shall determine upon application that, in view of all the circumstances of the case, the agent is fairly and reasonably entitled to indemnity for the expenses, which such court shall determine;
- (b) Of amounts paid in settling or otherwise disposing of a threatened or pending action, with or without court approval; or
- (c) Of expenses incurred in defending a threatened or pending action which is settled or otherwise disposed of without court approval, unless it is settled with the approval of the California Attorney General.

Section F-5. <u>Authorization of Indemnification When Agent Not</u> Successful on the Merits.

Any indemnification under Section F-3 or F-4 shall be made by this corporation only upon a determination that indemnification of the agent is proper in the circumstances because the agent has met the applicable standard of conduct set forth in Section F-3 or F-4, by:

- (a) A majority vote of a quorum consisting of Directors who are not parties to such proceeding; or
- (b) The court in which such proceeding is or was pending upon application made by this corporation or the agent or the attorney or other person rendering services in connection with the defense, whether or not such application by the agent, attorney or other person is opposed by the corporation.

Section F-6. Advance of Expenses.

Expenses incurred in defending any proceeding may be advanced by this corporation before the final disposition of the proceeding upon receipt of an undertaking satisfactory in form and amount to the Board of Directors by or on behalf of the agent to repay the amount of the advance unless it is determined ultimately that the agent is entitled to be indemnified as authorized in this Article.

Section F-7. Other Limitations on Indemnification.

Nothing in this Article shall affect any right to indemnification to which an agent other than a Director or officer is entitled by contract, but, except as provided in Section F-2 and F-5(b), no indemnification or advance shall be made under this Article if inconsistent with:

- (a) A contract, or with the Articles of Incorporation and Bylaws of this corporation, in effect at the time of accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts were paid; or
 - (b) Any condition expressly imposed by a court in approving a settlement.

Section F-8. Indemnification to Full Extent of Law.

Notwithstanding the above provisions, the corporation shall indemnify agents to the fullest extent permitted by law.

Section F-9. Insurance.

This corporation shall have the power to purchase and maintain insurance on behalf of any agent against any liability asserted against or incurred by the agent in such capacity or arising out of the agent's status as such, whether or not the corporation would have the power to indemnify the agent against such liability under the provisions of this Article; provided, however, that this corporation shall have no power to purchase and maintain such insurance to cover or indemnify any agent of the corporation for a violation of California Corporations Code §5233 or (relating to self-dealing transactions).

Section F-10. Employee Benefit Plan Fiduciaries.

With respect to any proceeding against a person who is a trustee, investment manager or other fiduciary of an employee benefit plan, for acts or omissions relating to such person's fiduciary responsibilities with respect to such plan, this corporation shall indemnify those fiduciaries who are Directors, officers or employees of the corporation, to the maximum extent permitted by law, notwithstanding any other provision of this Article to the contrary.
