Are any joint costs from a combined educational campaign and fundraising solicitation reported in (B) Program services? F Yes No

If "Yes," enter (i) the aggregate amount of these joint costs \$______, (ii) the amount allocated to Program services \$______,

(iii) the amount allocated to Management and general \$_____, and (iv) the amount allocated to Fundraising \$______,

Form 990 is available for public inspection and, for some people, serves as the primary or sole source of information about a particular organization. How the public perceives an organization in such cases may be determined by the information presented on its return. Therefore, please make sure the return is complete and accurate and fully describes, in Part III, the organization's programs and accomplishments.

	Date	Date	Proceeds/	Cost/Basis		Gain
DESCRIPTION	Acquired	Sold	Sales Price	Expense	Accum	or
				of Sale	Depreciation	-Loss
See Note -	#1	#2				

Note #1: All equipment and other fixed assets were acquired by purchase by the organization for use in its tax-exempt purpose of providing health care services on a mostly prepaid basis to its enrolled members. The organization acquired the assets on the open market at prices that were competitive with similar property at the time of acquisition.

Note #2: All equipment and other fixed assets have been disposed of either by sale to the general public, donation to other Section 501(c)(3) tax-exempt organizations or by abandonment.

After a good faith effort to market the assets deemed no longer serviceable to the organization in its purpose, where reasonable such assets are sold to the highest offer given the condition, age, and usability of the asset.

NOTES for current and future compensation, benefits and other reimbursements.

Note #1 - This Organization is one of the corporate entities listed on Part VI, Line 80 "Related and Controlled Entities" which is included as a part of this return. This Organization is a participating member of a vertically integrated direct service prepaid health care program.

Note #2 - The Officers and Directors can be contacted in care of:

Kaiser Foundation Health Plan, Inc. Program Office Controller's Department One Kaiser Plaza, Suite 15L Ordway Oakland, CA 94612

Note #3 - The executive compensation program for Kaiser Foundation Health Plan, Inc. and Subsidiaries and Kaiser Foundation Hospitals and Subsidiaries (KFHP/H) is designed to recruit, retain and motivate qualified senior management personnel. Senior management personnel have a significant impact on the strategic and policy direction and results of the organization. Therefore, the executive compensation program is, to a significant degree, performance-based. The compensation program is reviewed annually by an independent committee of the Board of Directors of KFHP/H, which evaluates and approves all programs and payments to executives.

Base pay for executive positions is established at a level comparable to the relevant market. In addition, other components of the compensation program bear 'at-risk' features designed to focus on strategically important performance goals and to assist in attracting and retaining top performers. The executive compensation program is targeted at the median of the comparable external market in which the organization competes for executive leadership. The compensation program focuses on objectives in the areas of quality of member care and service, financial soundness, and the community and social mission of the organization.

Note #4 - Compensation, benefit plan contributions and reimbursement for certain expenses (collectively referred to as "compensation") of Directors, Officers and Key Employees are paid by Kaiser Foundation Health Plan, Inc. (Health Plan) as common paymaster and disbursement agent for the participating member organizations of KFHP/H. Certain Directors, Officers and/or Key Employees perform services for several of the KFHP/H member organizations.

Some of the amounts shown as Compensation were actually earned in years prior to 2005. This compensation is effectively reported in Part V twice — once in the year deferred and again in the year paid. However, the compensation is only paid once. The disclosure rules mandate that significant amounts of compensation are double-counted in both 2004 and 2005. For instance, column C1 includes amounts paid in 2005 for achievement of performance goals for prior years, and column D2 includes payments scheduled for 2006 for performance goals achieved in 2005.

Note #5 – The Organization offers various benefit plans, both qualified and non-qualified. Among the benefits offered to the officers listed on Form 990, Part V-A line 75 c are a qualified Defined Benefit Plan (Plan A), a qualified Defined Contribution Plan (Plan B), a Section 403(b) Tax Sheltered Annuity Plan (TSA), a Section 457(b) Deferred Compensation Plan (CAP), and health and welfare benefit plans. Included in Benefits reported for this purpose are the value of the annual contributions to Plan B, TSA, CAP and certain health and welfare benefit plans. Estimates for 2005 accruals for future benefits under Plan A are included in column D1.

94-1340523

For other benefit plans available to executives which provide future benefits earned during 2005 (where the specific amounts are available and determinable by the time this tax report is filed), the amount is included in the Benefits column D1 reported in this return. Amounts determinable at year-end under termination of employment arrangements calling for future payments in a subsequent year are included in the D1 Benefit Plans column for this purpose. Individuals noted with (*) may have amounts included by reason of termination of employment and from benefit plan accounts that were previously earned.

Certain officers, directors and key employees are eligible for post-retirement medical and life insurance benefits if they meet certain eligibility requirements. Payments are not made to these post-retirement benefit plans on behalf of individuals until retirement, and thus, payments to these plans are not reported on Part V, column D. However, when the retiree benefits are actually paid, they are reported on Part V-B of the Form 990.

Note #6 - The amounts reported as Expense Account/ Other Allowance include amounts for reimbursement of expenses. Under IRS rules, ordinary and necessary business expenditures such as travel, transportation, lodging, meals, business meetings and conferences are not included here. These items are reimbursed on an accountable plan basis, consistent with policies and procedures based on prudent fiduciary responsibilities and standards. The policies under which these individuals account to the payer meet the substantiation requirements of Internal Revenue Code Section 274. This reporting includes taxable moving and relocation reimbursements and allowances.

Note #7 – The average weekly time spent on the organization's affairs during 2005 is reported based on individual records for Directors Kaiser, Ridgley, Graber, Cassel, Grigsby, Chapman, Thompkins, Purcell and Telles; for the other directors the time is estimated to be five hours. Actual time spent by Board member may vary based on different responsibilities during the year. Key employees, who work full-time, may work in excess of the standard 40-hour work week.

Kaiser Foundation Health Plan, Inc., Kaiser Foundation Hospitals, Kaiser Foundation Health Plan of the Northwest, Kaiser Foundation Health Plan of Colorado, and Kaiser Foundation Health Plan of Ohio have the same Directors. The hours reported for outside Directors for Part V represent the total average weekly time spent by each Director on all of these organizations' affairs during 2005.

FEIN: 94-1340523 December 31, 2005

1

Schedule A, Part III, Question 2a:

Kaiser Foundation Health Plan, Inc.(KFHP) is organized for the public benefit and provides health and medical care services for its members. KFHP and Kaiser Foundation Health Plan, Inc. (KFHP Inc.) and Kaiser Foundation Hospitals (KFH) have common Boards of Directors. KFHP, KFHP, Inc. and KFH are operated as separate charitable corporations. See **Statement 22** for a list of tax-exempt and non-exempt related entities.

Based on a review of KFHP records and Conflict of Interest (COI) statements for these directors, officers and key employees for 2005, KFHP did not engage in the sale, exchange, or leasing of property with any of the persons listed on Form 990, Part V.

Based on a review of the records of the affiliated taxable entities for transactions with these individuals, none of these taxable entities engaged in any sale, exchange or lease of property with KFHP individual directors or officers.

In the normal course of business in carrying out its charitable purposes, KFHP may have entered into the sale, exchange, or leasing of property with some of the related entities described in **Statement 22**. KFHP relationships with such organizations are conducted at a price which is not less than cost or more fair market value.

Schedule A, Part III, Question 2b:

Statement 20, page 2 provides a list of the directors, officers and key employee family members with whom KFHP did business or who were employed by KFHP or any KFHP affiliate. KFHP does not have trustees, creators or substantial contributors.

Based on a review of KFHP records and COI statements for these directors, officers and key employees for 2005, KFHP did not engage in the lending of money or other extension of credit with any of these persons in 2005. KFHP, Inc. has a program that provides loans to relocate executives. The program was modified in August 2002 to take into consideration the Section 402 provisions of the Sarbanes Oxley Act, limiting certain employees' eligibility for loans. **Statement 19** provides information regarding officer and key employee loans made by KFHP, Inc. as disclosed in the KFHP, Inc. 2005 Form 990, Part IV and Schedule A, Part III, question 2b.

FEIN: 94-1340523 December 31, 2005

Based on the COI questionnaires for 2005, **Statement 20, page 1** lists non-affiliated taxable organizations which did business with KFHP in 2005 and on which KFHP officers, directors, key employees or their families served as an officer, director, or owner. KFHP relationships with such organizations are conducted on a fair market value basis and the KFHP officer director or key employee abstained from voting on any such matter.

Schedule A, Part III, Question 2c:

Form 990, Part V lists the officers, directors and key employees of KFHP in 2005. Based on a review of COI statements for these directors, officers and key employees for 2005, **Statement 20, page 2** provides a list of their family members with whom KFHP did business or who were employed by KFHP or any KFHP affiliate. KFHP does not have trustees, creators or substantial contributors. Any such transactions are conducted on a fair market value basis.

Based on a review of KFHP records and COI statements for these directors, officers and key employees for 2005, KFHP did not engage in the furnishing of goods, services, or facilities with any of the persons in 2005.

In the normal course of business in carrying out its charitable purposes, KFHP may have entered into the furnishing of goods, services, or facilities with some of the related taxable entities. **Statement 27** generally describes the transactions between KFHP and those entities.

Based on the COI questionnaires for 2005, **Statement 20, page 1** lists non-affiliated taxable organizations, which did business with KFHP in 2005 and on which KFHP officers, directors, key employees or their families served as an officer, director, or owner. **Statement 20, page 1** also provides a general summary of the transactional relationship (if any) between KFHP and such organizations. KFHP relationships with such organizations are conducted on a fair market value basis and the officer, director or key employee abstained from voting on any such transaction.

TIN: 94-1340523 DECEMBER 31, 2005

LOBBYING ACTIVITY BY NONELECTING PUBLIC CHARITIES FORM 990, SCHEDULE A, PART VI-B

The Organization is a member of the Kaiser Permanente Medical Care Program and participated and benefited from lobbying activities conducted at the national level by Kaiser Foundation Health Plan, Inc. for the benefit of its enrolled members and for the health care industry as a whole. As an organization generally exempt from income tax under Internal Revenue Code Section 501(c)(3), Health Plan did not participate in or conduct political campaigns.

During the year this Organization may have made comments or statements concerning legislation which may affect the health care industry. Health Plan may have engaged in telephone conversations and/or written letters to various federal, state, and local officials regarding matters which affected the healthcare industry as a whole. The amount of time and money involved in the activities is detailed on lines a through h. Health Plan has not intervened in any political campaign.

Health Plan has several employees and/or may retain a professional consultant to represent Health Plan's interests in various legislative and regulatory bodies and from time-to-time to keep informed of Federal and State legislation having an impact on Health Plan's charitable activities as an exempt Health Maintenance Organization.

These individuals attempt to ensure that proposed legislation and enacted laws are compatible with the Interest of Health Plan and its members by performing the following activities:

- Collecting, analyzing and distributing within the Organization, public and private
 policy recommendations regarding proposed legislation and enacted laws that
 affect the operation of Health Plan and its ability to provide quality health and
 medical care services to its members in a cost effective environment.
- Providing appropriate informational materials to legislators and to their staffs that
 pertain to matters of common interest in the health care community and in the notfor-profit community.
- Also by preparing written and oral testimony, these individuals appear at legislative hearings, monitor legislative proceedings and meet with legislators and/or their staffs regarding issues pertinent to the mission of Health Plan. Those individuals appearing at such hearings and meetings for and on behalf of Health Plan often are representing the interests of common interest groups as well as the interests of the members of Health Plan.
- Other employees and officers perform services by delivering speeches at various public and private functions and in serving as faculty in healthcare related educational programs throughout the community.

2005 COMMUNITY BENEFIT REPORT KAISER FOUNDATION HEALTH PLAN, INC.

Kaiser Foundation Health Plan, Inc. (KFHP), with its five principal operating tax-exempt subsidiary health plans—Kaiser Foundation Health Plan of Colorado; Kaiser Foundation Health Plan of Georgia, Inc.; Kaiser Foundation Health Plan of the Mid-Atlantic States, Inc.; Kaiser Foundation Health Plan of the Northwest; and Kaiser Foundation Health Plan of Ohio—as well as Kaiser Foundation Hospitals (KFH), are nonprofit corporations that are part of the integrated health care delivery system known as the Kaiser Permanente Medical Care Program or "Kaiser Permanente."

This report describes the structure of Kaiser Permanente and documents the National Community Benefit activities, programs and services of KFHP, its subsidiaries, and KFH, combined as well as the specific community benefit provided by KFHP and KFH in California and Hawaii.

In 2005, Kaiser Permanente served over 8.4 million people in nine states: California, Colorado, Georgia, Hawaii, Maryland, Ohio, Oregon, Virginia, Washington and the District of Columbia. This program is the largest private nonprofit health care program in the United States and has more than 148,000 employees and nearly 13,000 physicians and 120 dentists. In California, KFHP and KFH served more than six million members, with more than 92,000 administrative, clerical and technical employees, as well as 9,801 Permanente physicians representing all specialties. KFHP and KFH in Hawaii served approximately 227,000 members, with 2,827 full-time employees and 371 full-time Permanente physicians.

Kaiser Permanente is an integrated health care delivery system that combines the provision and financing of health care services. People who elect to enroll in a Kaiser Permanente health plan receive a full range of prepaid health care services, including hospital care, professional care in hospitals and physicians' offices, x-ray and laboratory services, physical therapy, emergency, ambulance transportation, preventive services, health education and certain prescribed drugs. More comprehensive drug coverage is also provided through a separate coverage rider.

In California and Hawaii, Kaiser Permanente is comprised of five separate legal organization's: KFHP, a California nonprofit public benefit corporation exempt from federal income tax under Internal Revenue Code §501(c)(3); KFH, a California nonprofit public benefit corporation exempt from federal income tax under Internal Revenue Code §501(c)(3); The Permanente Medical Group, Inc., Southern California Permanente Medical Group, and Hawaii Permanente Medical Group, Inc. (collectively, "Permanente Medical Groups"), each of which is a separate, independent multi-specialty group of physicians.

Persons enroll in Kaiser Permanente through KFHP or one of the Health Plan subsidiaries or "Health Plan." Health Plan provides and arranges comprehensive health care services for members on a predominantly prepaid basis and fulfills its contractual obligations to groups and individual members by contracting with KFH and a Permanente Medical Group to provide the required health care services.

Members receive services from various Permanente Medical Groups in the respective Kaiser Permanente regions. The Permanente Medical Groups accept responsibility for professional care of Health Plan members and are responsible for their own physician recruitment, selection and staffing; they are legally separate entities independent from Health Plan, KFH and each other. The Permanente Medical Groups generally treat members in facilities owned, leased or contracted by KFHP or KFH.

KFHP and KFH are separate corporations governed by identical boards of directors. KFH accepts responsibility to provide or arrange necessary hospital services and facilities for Health Plan members. KFH owns and operates 28 licensed hospitals, including three licensed hospitals with multiple campuses in California, Hawaii and Oregon, which provide emergency and inpatient services to all persons in the community.

Staff privileges are available on a nondiscriminatory basis to physicians in the communities served. KFH also contracts with other community hospitals to provide hospital services to members for specialized care and other services.

In California, KFH medical centers are located in the cities of Anaheim, Baldwin Park, Bellflower, Fontana, Fremont, Fresno, Harbor City, Hayward, Los Angeles, Manteca, Oakland, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Rafael, Santa Clara, Santa Rosa, Santa Teresa, South Sacramento, South San Francisco, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills. In Hawaii, the Moanalua Medical Center is located in the City of Honolulu on the island of Oahu.

Services provided by KFH and membership in Health Plan are available without regard to sex, race, religion, ethnic background, sexual orientation, occupational status, or income level. Health Plan members are broadly representative of the various ages, social, and income groups within the areas served. Once enrolled, a member is free to maintain membership regardless of age, health status, or employment.

KAISER PERMANENTE'S COMMITMENT TO THE COMMUNITY

Through the Kaiser Permanente mission, the organization contributes to the health of the communities in two related ways. First, Kaiser Permanente strives for excellence in serving its more than 8 million members, through market-leading performance in quality, service and affordability. By doing so, Kaiser Permanente provides a discipline in the marketplace by demonstrating meaningful value, and affordability, and generating resources to reinvest in the communities' health.

Second, Kaiser Permanente directly invests in improvements to community health by working to increase access for the underserved, disseminating care improvements, altering the social determinants of health, educating healthcare workers and consumers, and informing public policy.

This latter approach, which Kaiser Permanente calls Direct Community Benefit Investment (DCBI), is fundamental to being a nonprofit organization. It embodies the organization's commitment to improve the health of communities, beyond services to Health Plan members. It is more than traditional corporate citizenship or corporate philanthropy. It is an intentional, planned, budgeted, measurable, accountable creation for better health in our communities. It is done in collaboration with, not in isolation from, the community. DCBI serves to fulfill Kaiser Permanente's social purpose, justify its tax-exempt status, and differentiate it from other health care organizations.

This tradition of community benefit dates from the earliest days of the Program, when charitable care to non-employees, and later, nonmembers, was initiated. That heritage has continued through the years in Kaiser Permanente's early participation in publicly financed programs such as Medicaid and Medicare, establishment of residency training and medical research programs, and later in the development of the Educational Theatre, Safety Net Partnerships, Community Health Initiatives and Charitable Coverage programs.

In 2001, the Board reaffirmed DCBI as a national program and set the following four goals:

- Address critical questions in American health care that the Program's history, culture and competencies position it uniquely to examine
- Build the reputation of Kaiser Permanente for its leadership in helping to solve major health challenges
- Create a program that engages the creativity and spirit of the people of Kaiser Permanente at all levels

 Meet the requirements placed on KFH, KFHP, and its subsidiary health plans, as tax-exempt organizations that return value to the communities served beyond the provision of health care to members

The Board directed that this new DCBI program be guided by a national strategy, with continued local flexibility and implementation. The program is supported by national and regional funding pools, and built on the organization's integrated healthcare system. Community benefit investments are concentrated in four areas:

- Vulnerable Populations Address the financing and delivery problems of populations that are vulnerable due to socioeconomic status, illness, ethnicity, age, or other disabling factors
- Evidence-based Medicine Develop and communicate the evidence base to determine what form of medical care works, for which patients and populations, under what circumstances, at what cost and in which delivery settings
- Education Evaluate and demonstrate educational models for the health professions in integrated
 care systems and for health care consumers in managing their own health and obtaining health care
 services
- Public Policy Develop and disseminate public policy information that reflects the interests of the nation as a whole

The Board elaborated that at least 75% of total community benefit funding will be directed to Program priorities within the four focus areas, and the remaining 25% of funding will be directed by local operations to respond to local community benefit needs and opportunities that may or may not be within the four key focus areas.

As part of the new approach, the Board approved the formation of a National Community Benefit Governance Council, and established a standing Community Benefit Committee of the Board of Directors to oversee the new program. The Board also designated a national executive of KFHP and KFH to lead Kaiser Permanente's Community Benefit Program as a full-time assignment. Raymond J. Baxter, PhD is the Senior Vice President for Community Benefit, reporting to the CEO and Chairman of the Board.

COMMUNITY BENEFIT PROVIDED BY KAISER FOUNDATION HEALTH PLAN, INC.

KFHP provides comprehensive health care services on a prepaid basis through an integrated health care delivery system, available to the community as a whole. Because the Health Plan is a nonprofit organization, revenues that exceed the cost of operations and provision of care are reinvested in the Program to improve facilities and services, increase benefits, fulfill our charitable mission, and provide affordable rates rather than to pay dividends to stockholders.

KFHP provides care that emphasizes prevention, minimizes medical indigence and contributes to quality of life in the communities we serve. To best serve the community by providing affordable, comprehensive health care and support its social mission, KFHP is organized and operated as a fully integrated delivery system.

Integrated Services and Facilities – KFHP has organized and integrated the professional and
physical resources required to provide comprehensive health care. In hospital-based Kaiser
Permanente regions, this care primarily occurs at major medical centers, as well as at nearby
outpatient medical offices owned by KFH and at medical office buildings owned or leased by
KFHP. Members typically have all the services and professional care they require in one place,
which facilitates a coordinated approach to care. Equipment and supporting personnel are
shared and high-technology services, such as neurosurgery, open-heart surgery and cancer
treatment are also centralized to facilitate development and transfer of best clinical practices
among all Permanente providers.

- Group Practice Contracting Permanente Medical Groups are organized into large multi-specialty group practices that take responsibility for providing comprehensive care to a defined population in facilities owned or leased by KFH or KFHP. The income that Permanente Medical Groups and their physicians receive is in consideration of their professional medical and related services. The amounts paid to the Permanente Medical Groups are negotiated annually. By altering the direct relationship between service performed and income received, KFHP removes incentives to perform unneeded services, and encourages use of the most appropriate medical care. Group practice enhances quality and appropriateness of care for members and for the community by facilitating development and sharing of "best clinical practices" throughout the community and across the nation.
- Prepayment Generally, KFHP pays the Permanente Medical Groups a per-member payment
 on a budgeted prepaid basis that does not vary with the amount of service provided.
 Permanente Medical Group physicians are generally not compensated on a fee-for-service basis.
- Benefit Plans KFHP offers a variety of coverage options that provide for unlimited hospital days, physician visits, preventive services, immunizations, well-baby care and prenatal care. In order to maximize affordability and encourage people at different income levels to purchase coverage, KFHP offers a variety of cost-sharing options. Comprehensive, prepaid coverage with differing levels of premium and cost-sharing minimizes financial barriers to care, promoting early consultation, detection and treatment of disease. KFHP actively encourages members to maintain their health through regular preventive self-care.
- No Pre-Existing Condition Exclusions Pre-existing condition exclusions allow carriers to
 exclude from coverage care for a condition that existed before enrollment with the carrier. KFHP
 imposes no pre-existing condition exclusions for group members and thereby provides
 substantial protection for new members who are ill at the time of enrollment. KFHP offered health
 benefits coverage in all its markets without any pre-existing condition exclusions for many years
 prior to recently enacted federal and state statutes prohibiting pre-existing condition exclusions in
 certain markets. By ensuring that all our enrollees are covered for all their medical needs, we
 reduce the amount of uncompensated care, promote the health of our members, and prevent
 medical indigence.
- Participation in Medicare KFHP has participated in Medicare since it was first implemented in 1965. In 2005, KFHP and its subsidiaries enrolled approximately 896,000 Medicare beneficiaries, providing Medicare Part A and Part B services, plus additional drug, optical, and inpatient coverage.
- Participation in Medicaid KFHP began enrolling Medicaid beneficiaries in the mid-1960s.
 Currently, KFHP and certain subsidiaries provide care to approximately 139,000 Medicaid managed-care members and in addition serve a large number of Medicare and Medicaid patients on a fee-for-service basis. KFHP also participates in the State Children's Health Insurance Program (SCHIP), serving an additional 91,000 children in 2005.

THE COMMUNITY BENEFIT PROGRAMS IN CALIFORNIA AND HAWAII

In 2005, KFHP and KFH spent approximately \$668 million or approximately 2.2% of revenue, to support the Community Benefit Programs in the communities. In California and Hawaii, KFHP and KFH spent \$582 million, of which \$282 million is allocable to the health plan and another \$300 million is allocable to hospitals. A breakdown of the 2005 DCBI dollars attributable to KFHP and KFH nationally is described in Attachment A, and those dollars attributable to KFHP and KFH in California and Hawaii in Attachment B.

The following identifies many of the signature community benefit programs and services funded by both KFHP and KFH in California and Hawaii, grouped according to the national focus areas.

VULNERABLE POPULATIONS

KFHP and KFH in California and Hawaii expended approximately \$496 million to address the financing and delivery of health care for populations vulnerable due to socio-economic status, illness, ethnicity, age or other factors in 2005. Of that amount, \$279 million is attributed to KFHP and \$217 million is attributed to KFH. A complete description of the DCBI attributable to KFHP and KFH in California and Hawaii is described below:

MEDICAL CARE SERVICES

KFHP and KFH in California and Hawaii provide medical care services for vulnerable populations in many ways. These include Charitable Care Programs, participation in public programs for low-income individuals such as Medicaid and the State Children's Health Insurance Program (SCHIP).

Charity Care (Medical Financial Assistance Program and Charitable Health Coverage)

Kaiser Permanente provides charity care to low-income vulnerable populations through two programs – the Medical Financial Assistance Program and the Charitable Health Coverage Program.

Medical Financial Assistance (MFA)

The MFA program in California and Hawaii provides temporary financial assistance to patients who have received health care services at Kaiser Permanente facilities or from Kaiser Permanente providers. The MFA program strives to meet the needs of as many patients as reasonably possible and is generally available to people in greatest financial need, including those experiencing unusual or unfortunate circumstances. The MFA program is one way in which Kaiser Permanente facilitates access to health care for people most in need. The MFA program contributes to community health by meeting the health care needs of the most vulnerable through periodic assistance. In 2005 KFH provided medical care services to nearly 31,000 MFA patients and expended more than \$30.5 million.

Charitable Health Coverage Program

Approximately 44,000 low-income adults and children who were not eligible for other public or privately sponsored coverage received health care coverage through one of Kaiser Permanente's charitable health coverage programs in 2005. KFHP contributed \$51 million and KFH contributed an additional \$22 million to provide subsidized care for these underserved populations.

The Steps Plan and Kaiser Permanente Child Health Plan are the specific products that form the Charitable Health Coverage Programs in California.

- Kaiser Permanente Steps Plan In 2005, the Steps Plan provided 15,254 members the opportunity to continue their health care coverage at reduced cost when experiencing financial difficulty due to job loss, involuntary reduction in work hours, legal separation, divorce or death of a spouse. Typically, participants are not eligible for any public or private group health insurance plan, and have family income between 100% and 300% of the federal income guidelines. The plan is available to parents of children enrolled in AIM, Healthy Families or Kaiser Permanente Child Health Plan as well as to individuals participating in vocational training programs offered through government, private industry councils and social agencies. The Steps Plan premium is subsidized at four levels or steps: 20%, 40%, 60% and 80%. Participants are placed in an initial premium step based on their current family income. They remain at the initial step for one year and are then moved to the next higher step.
- Kaiser Permanente Child Health Plan (KPCHP) KPCHP merged the existing Child Health Plan-1 and Child Health Plan-2 into a single statewide program. The plan provides medical and dental coverage to eligible children (birth through 18) in families with income up to 300% of the federal income guidelines who don't have access to subsidized employer coverage or qualify for public programs because of family income or immigration status. In 2005, 28,511 children received care through this program.

Participation in Medicaid and Other Publicly Financed Programs

KFHP and KFH have a long history of participating in publicly financed health programs. In 2005, \$359 million was expended (in excess of reimbursement) and 217,704 people were served in government sponsored programs for low-income people in California and Hawaii. Approximately \$222 million is attributed to services provided by KFHP and \$137 million is attributed to KFH. Kaiser Permanente Medi-Cal Managed Care, Medi-Cal Fee-for-Service, and Healthy Families are specific government sponsored health care coverage programs in California.

- Medi-Cal KFHP enrolled 108,706 Medi-Cal (Medicaid) managed care members in California, providing comprehensive inpatient and outpatient care throughout 2005. KFHP subcontracts with local initiatives in Alameda, Contra Costa, Los Angeles, Riverside, San Bernardino, San Francisco, and Santa Clara Counties, and with county-organized health systems in Napa and Solano Counties and Orange County. KFHP also contracts directly with the state of California through their Geographic Managed Care Plan for Sacramento and San Diego Counties, and through the Prepaid Health Plan for Marin and Sonoma Counties.
- Medi-Cal Fee-for-Service KFHP and KFH also provided more than \$71 million in subsidized care to Medi-Cal Fee-for-Service patients. Of this amount, approximately \$49 million is attributed to services provided by KFH.
- Healthy Families KFHP enrolled 87,763 children in this federal and state funded insurance program that provides low- and moderate-income families with health insurance for their children under 19 years of age. The program is the result of the federal State Children's Health Insurance Program (SCHIP), which enables states to create new health care coverage or expand Medicaid programs. The program provides comprehensive health benefits, including dental and vision care. To qualify, families must have total income between 100% and 250% of the federal income guidelines, and the children must be ineligible for Medi-Cal coverage.

In Hawaii, KFH and KFHP served both Medicaid members and Medicaid Fee-for-Service beneficiaries.

 Quest & Medicaid Fee-for-Service — KFHP and KFH provided care to 20,576 individuals enrolled in Quest, Hawaii's Medicaid Program, and expended approximately \$11.3 million on subsidized medical care services. The Quest Program was cited as the number two Medicaid program in the United States by NCQA in 2005. The Hawaii Region also contributed an additional \$1.6 million on subsidized care for Medicaid Fee-for-Service patients.

Grants and Donations for Medical Care Services

In 2005, KFHP and KFH donated approximately \$10.3 million to 226 nonprofit and community-based agencies in California and Hawaii to support the delivery of medical care by community providers. The following are examples of programs and organizations funded by KFHP and KFH.

- KFH in Northern California granted \$99,968 to the Alameda County Health Care Foundation to support their Safety Net Diabetes Improvement Project. The funds are being used to establish a clinical information system and self-management support program—both essential components to instituting a chronic care management model.
- The Community Clinic Health Network (CCHN) received a \$149,560 grant from KFH in Southern California to implement the Kaiser Permanente A.L.L. (Aspirin, Lisinopril, Lovastatin) Program in two community health centers in San Diego County. The goal of this program is improve the health outcomes of 1,500 uninsured diabetic patients at-risk for cardiovascular disease. In addition, KFH's Care Management Institute and Population Care Management Departments collaborated with CCHN and their Physician Council.

COMMUNITY-BASED PROGRAMS FOR VULNERABLE POPULATIONS

KFH spent approximately \$13 million to provide a variety of programs to individuals who live and work in the California and Hawaii communities. The programs listed below are free and open to all community members irrespective of health insurance status.

Learning Centers

In 2005, over \$2.8 million was spent by KFH on counseling, education, and social services for disadvantaged children and their families in Southern California.

- Watts Counseling and Learning Center (WCLC) For nearly 39 years, this has been a
 valuable community resource for low-income, inner city families of South Central Los Angeles.
 WCLC provides mental health and counseling services, assistance to children with learning
 disabilities, and pre-employment training to high school youth. In addition, WCLC operates
 several programs, including a state-licensed preschool program, a summer day camp, "Kids Can
 Cope" support groups (for children whose siblings or parents have cancer), training on
 scholarships for high school and postsecondary students, plus training for graduate social work
 interns from local universities.
- Educational Outreach Program (EOP) This program provides education and support services to primarily Latino youth, ages 10 to 14, of the San Gabriel Valley section of Los Angeles County. The focus of EOP is to provide a unique dropout prevention program in a community setting. EOP provides nine different programs both in English and Spanish to children and parents during after-school hours and on Saturdays. The types of programs offered include: homework assistance and study skills classes; reading improvement classes; mother-daughter workshops, "Aprendiendo Juntas" (Learning Together); Safe Sitter training; and summer enrichment sessions.

Youth and Other Employment Programs

KFH in California spent approximately \$1.7 million to fund youth employment programs aimed at improving education and job skills, or providing employment opportunities for targeted populations. More than 450 youth were employed by Kaiser Permanente through the following two programs in 2005:

- Summer Youth This program provides economically disadvantaged high school students in
 California with supportive and meaningful employment experiences in the health care field.
 Employment is during the summer months throughout the organization. In addition to work
 assignments, the youth participate in educational sessions to enhance job skills and work
 performance. Many former Summer Youth students are now employed as nurses, assistant
 department administrators, lab technicians, opticians and engineers.
- INROADS This organization focuses on developing minority college students for leadership
 roles in corporations and in the community. Student interns typically work two to five summers in
 corporate and allied health care positions at Kaiser Permanente with the goal of permanent
 placement upon graduation from college. In 2005, a health track was created to support student
 interns in the fields of nursing, laboratory, diagnostic services, etc.

Grants and Donations for Community-Based Services

In 2005, KFHP and KFH donated approximately \$8.7 million to 685 nonprofit and community-based agencies in California and Hawaii to support a variety of community services for vulnerable populations. The following are examples of programs and organizations funded by KFHP and KFH:

KFH in California committed \$500,000 in grants, along with technical assistance to providers and state-wide organizations supporting the Healthy Eating, Active Communities initiative – a partnership between The California Endowment and Kaiser Permanente to address pediatric obesity and racial and ethnic health disparities through intensive, place-based efforts in six California communities. Kaiser Permanente physicians and health educators also conducted train-the-trainer sessions on pediatric obesity prevention and advocacy for community-based

providers and public health staff participating in these efforts, and served on the local collaborative steering committees.

- Neighbors Acting Together Helping All, Inc. (NATHA), El Centro and Outward Bound Adventures collaborated to improve the nutritional habits and fitness levels of school children and teens in Northwest Pasadena with the support of \$50,000 from KFH in Southern California. The program combines education and activities that promote good nutritional habits, foster self-confidence and self-esteem, bolster fitness, and assist youth to develop goal-setting skills. Serving approximately 100 predominately Latino and African-American teens, its Community Health Promoters are neighborhood residents recruited and trained to do outreach, and educate their neighbors on healthy eating and exercise.
- Kaiser Permanente Hawaii, the American Cancer Society, Hawaii State Department of Health and Department of Education, University of Hawaii College of Education, the John A. Burns School of Medicine, and the Hawaii State Parent-Teacher-Student Association sponsored a daylong conference attended by over 500 teachers, administrators and public health educators. The conference offered educators an opportunity to gain proficiency in skills-based health education and learn about coordinated resources for school health. Comprehensive school health education is designed to focus on the physical, emotional, social and educational development of school-aged children. The conference, featuring local and national presenters, offered leading edge research, best practices, and educational tools to help educators serve the children of Hawaii. This opportunity filled a void in the professional development of both public and private school teachers.

EVIDENCE-BASED MEDICINE

KFH in California and Hawaii spent approximately \$14 million to support clinical and health research activities. From the beginning, research has been a core value at Kaiser Permanente. Kaiser Permanente conducts more research than any other non-academic institution in the United States. Kaiser Permanente partners with several prominent academic research institutions, including Duke University, Harvard, Oregon Health & Sciences University, Stanford University, University of California (Los Angeles, Berkeley and San Francisco), University of Southern California, University of Washington and also partners with the National Institutes of Health and the Centers for Disease Control and Prevention. A complete description of community benefit research activities is provided below:

Clinical and Health Services Research

For more than 40 years, Kaiser Permanente researchers have leveraged modest grants financed through the community benefit program into major discoveries that have served our communities, influenced national policy, and informed medical practice throughout the nation and the world. Community Benefit funds support research that meets important medical and social needs, such as preventing violence, infectious disease, and improving health care for adolescents, youth and underserved populations. Many of the research studies address problems of current health policy interest. They are designed to improve care for common conditions where treatment is often linked to community-based efforts, and are broadly disseminated through articles and professional presentations.

In California, KFH has three research departments: the Division of Research (DOR), Northern California, established in 1961; Department of Research & Evaluation (R&E), Southern California, established in the early 1980s: and Kaiser Foundation Research Institute (KFRI). Two nursing research units for KFH in California also engage in studies on nursing practices, patient care, and patient outcomes in order to improve clinical practices. The Center for Health Research Hawaii (CHRH) is the primary research department for KFH in Hawaii.

CHRH, DOR, KFRI, and R&E—together with the Northern and Southern California Nursing Research Departments—spent \$10 million and helped support more than 300 primary research studies, published 50 articles and presented findings in several medical education forums and conferences. The following is a sampling of the evidence-based studies conducted in 2005.

Study: Pregnancy Planning Status and Health Behaviors Among Non-pregnant Women in a California Managed Health Care Organization

• Conducted by the Research and Evaluation Department in Southern California, this study examined women's behaviors before and during pregnancy and how it can affect their infants' health. A telephone survey was conducted of non-pregnant women of childbearing age. Compared to women not planning a pregnancy, those planning pregnancy "soon" or within the next year were less likely to smoke, and more likely to take a multivitamin regularly, as well as have had a health care visit in the past year. Women planning a pregnancy more than one year in the future had elevated odds of reporting alcohol use; and were similar to women not planning a pregnancy with respect to multivitamin use and smoking behavior. Women planning to be pregnant soon were more likely than women not planning a pregnancy to report that a health care professional had talked to them about taking a vitamin or mineral supplement. All women of childbearing age need information about the importance of engaging in healthy behaviors. Health care providers who have regular contact with such women should send clear messages about the adverse effects of alcohol and smoking during pregnancy and the importance of taking a multivitamin regularly, regardless of women's pregnancy plans, before they become pregnant.

Study: Antidepressant Medications and Suicidal Behavior in Children and Adolescents

• This new study was conducted by the Department of Research in Northern California. In March 2004, the U.S. Food & Drug Administration (FDA) issued a serious health advisory or "black box" warning for all antidepressants, and recommended close monitoring of children and adolescents when prescribed. This warning was based upon the findings of a meta-analysis conducted by the FDA of 20 placebo-controlled clinical trials of selective serotonin reuptake inhibitors (SSRIs) and similar antidepressants involving 2000 subjects. However, due to the limitations of the clinical trials and the lack of a single completed suicide in any of the studies, no causal link between antidepressants and completed suicides was documented. At the end of 2005, DOR began to examine the relationships between antidepressant use, completed suicides and attempted suicides in Northern and Southern California Health Plan members, 10 to 25 years of age, during the past 10 years.

Study: Looking at Everyday Approaches to Decisions (LEAD)

 Conducted by The Center for Health Research in Hawaii in collaboration with the National Institute on Aging, this study's purpose was to develop ways to improve decision-making among persons with mild-to-moderate cognitive impairment.

Grants and Donations for Evidence-Based Services

In 2005, KFHP and KFH donated approximately \$270,000 to 37 nonprofit and community-based agencies in California and Hawaii to support evidence-based services and projects. For example:

• The Hawaii State Consortium for Integrative Healthcare, founded in July 2000, is a collaboration of Hawaii health care stakeholders interested in exploring the potential of integrative health and wellness through research, education and clinical models while protecting, respecting and supporting traditional Hawaiian healing practices. Twenty-six organizational stakeholders from hospital, insurance, government, academic and professional sectors participated in a leadership retreat. Top priority research projects include a multi-center pilot study on work-related lower-back pain, and a collaborative project focused on prevention and longitudinal management of childhood obesity.

EDUCATION

In California and Hawaii, KFHP and KFH spent \$61 million to educate health care professionals and consumers during 2005. A more descriptive breakdown of community benefit attributed to KFHP and KFH is described below:

CONSUMERS

KFHP SPENT \$36,000 AND KFH SPENT \$7.3 MILLION ON COMMUNITY WELLNESS AND HEALTH EDUCATION PROGRAMS IN CALIFORNIA AND HAWAII.

Community Health Education and Prevention Programs

KFH provided a variety of activities and programs to assist health care consumers in managing their health and well-being. The hospitals serve as the primary site for the dissemination of health education information to both Health Plan and community members who access these facilities through the health education centers. Other programs and services are offered in various community locations.

Community health education materials, programs, services and training sessions are designed to reach members of the community. The purpose is to improve health and prevent disease in adults, children, families and teens by conducting appropriate health education interventions and sharing Kaiser Permanente health education resources. These programs widely disseminate over 200 Kaiser Permanente-produced, quality health education materials, resources and services to the community. Healthphone, Healthwise Self-Care Tip sheets, Smoker's Helpline, and LiveWise Self-Care Kits are examples of the resources provided. Programs offered include Breastfeeding, HIV Prevention, Better Nutrition and Lifestyle, Coping with Chronic Diseases, and Seniors Movement Programs. Continuing education courses and skills training sessions are provided to community health care providers. Many programs and resources are provided in partnership with community advocacy groups, community clinics, libraries, nonprofit organizations, cable television channels and schools.

Regional Community Health Education

During 2005, the Regional Health Education Departments in California and Hawaii undertook specific community focused projects and partnered with several nonprofit community agencies to provide additional services. The following are examples of community programs aimed at educating health care consumers:

- The Southern California Regional Health Education Department provided technical assistance in the form of training, materials, and consulting for an overweight pediatrics "train-the-trainer" workshop. Healthy Eating Active Communities (HEAC) Initiative grantees, Kaiser Permanente Healthy Eating, Active Living grantees, Kaiser Permanente Health Education, and Kaiser Permanente pediatricians provided guidance on the essential components of an effective medical office visit for community physicians, nurses, mid-level providers, nutritionists and counselors treating overweight and obese children. The overall goals were to develop skills and provide tools for presentations in the community.
- In Northern California, community health education activities specifically designed for women were conducted during National Women's Health Week. The first event focused on heart health for women. Community Health Education staff partnered with physicians to conduct blood pressure screenings and provide appropriate health education information. The Women's Health Farmer's Market was another event, which featured organic, locally grown produce, a wealth of health education information and self-care products. Health promotional materials, such as books, videos, audiotapes and other health products were provided both free-of-cost or for sale. Lastly, a health fair focusing on overall women's health was organized and held at the Oakland Medical Center. This community public event offered a variety of health information, including a lecture on emerging women's health issues by Rebecca Elia, MD, called Creating Health through Feminine Wisdom.

The Hawaii Regional Health Education Department supported the Senior Summit program that provides ongoing educational opportunities on a wide variety of issues specific to seniors. Professional specialists conducted a lecture series focusing on medical conditions and other areas of interest to seniors. The emphasis was on prevention, personal growth, and learning how to maintain a healthy lifestyle. All lectures included both members and non-members.

Kaiser Permanente Community Wellness Library

The Kaiser Permanente Community Wellness Library is an online resource that offers free clinical education and consumer health education to clinicians and staff at community health centers and public hospital systems. Part of Kaiser Permanente's community outreach, this web site contains current audiovisual materials in various formats, much of it produced by Kaiser Permanente. Consumer health education materials are available for patients who wish to become better informed or those individuals who want general health information. Many of the health education subjects are featured in several languages including Spanish, Cantonese, and Mandarin. Health care providers also have access to continuing medical education materials that provide CME/CEU credits and keep them abreast of the best practices in clinical care. All items offered through the web site are available to borrow at no cost, some titles are complimentary to requestors, and others may be purchased at a minimal price. The web site can be accessed at http://www.kpwellness.org.

Educational Theatre Programs

Educational Theatre Programs (ETP) uses live theatre, music, comedy and drama to inspire children, teens and adults to make healthier choices and better decisions about their well-being. These educational programs were developed with the advice of teachers, parents, students, health educators, medical professionals and professional theatre artists. All performances are delivered by professional actors who are also trained as peer health educators, and performed free of charge for the community. ETP also provides schools and organizations with supplementary educational materials, such as workbooks, parent and teacher guides and student wallet cards to reinforce the messages presented on stage.

KFH spent \$5.7 million to provide nearly 454,000 children and adults in California the opportunity to view one of the 1,748 performances and 244 workshops during 2005. The current repertoire includes:

- Zip's Great Day Musical comedy for elementary school children about making healthy choices and avoiding conflict
- P.E.A.C.E. Signs Conflict resolution and anti-violence program for upper-elementary school students
- Drummin' Up Peace A multi-intervention program that promotes conflict isolation to help students increase peace
- Someone Like Me a production that uses drama, music, and humor to address adolescent issues
- Amazing Food Detective Bilingual (English/Spanish) program for elementary school kids on making informed food choices and snacking in moderation to avoid obesity and its health problems
- ARRR-STHMA! Entertaining production that focuses on dealing with childhood asthma
- Nightmare on Puberty Street Dramatic presentation about the joys and angst of adolescence
- Secrets HIV/AIDS educational drama for high school students

Grants and Donations for Consumer Education

Kaiser Permanente donated approximately \$1.2 million to support a variety of projects aimed at providing education to health care consumers.

PUBLIC POLICY

Both KFHP and KFH recognize that public policy influences the environment in which we operate and impacts the communities we serve. In 2005, KFHP contributed \$1.2 million and KFH contributed \$1 million to advance public policy that is beneficial to the community. The KFHP and KFH public policy strategy includes building public/private partnerships to advance population health, supporting legislation that advances expanded access, health promotion and disease prevention, as well as convening policy makers and researchers to develop knowledge-based public policy. A description of the community benefit attributed to KFHP and KFH follows:

Institute for Health Policy (IHP)

The mission of KFHP's IHP is to advance the understanding of key health policy issues and to support, in collaboration with others, health policy that will improve health and the manner in which health care and financing systems serve the members of our communities. In 2005, KFHP contributed \$1.2 million to support IHP program. Activities in 2005 included:

- Cosponsored with the California Department of Health Services and the University of California, Berkeley the "California Childhood Obesity Conference" to support advocacy and action in the area of public policy to address the epidemic of overweight and obesity.
- Worked to improve health care quality and efficiency by encouraging greater use of evidence in managing new medical technologies. Sponsored a roundtable. "Linking Public View on New Medical Technology to the Evidence."
- Cosponsored an ECRI meeting on chronic pain management at the "Economics of Innovation" summit at the Wharton School.
- Sponsored numerous conferences, roundtables and publications to understand the impact of health care market competition on quality and efficiency, and to determine the most effective role for public policy in encouraging appropriate competition.

In 2005, Kaiser Permanente collaborated with the Institute of Medicine (IOM) to support the dissemination of findings from the IOM's September 2004 report on pediatric obesity prevention. Kaiser Permanente and IOM also jointly facilitated outreach and dialogue with practitioners, parents, community-based organizations, academic institutions (including K-12 schools), and other individuals and organizations concerned with and involved in addressing childhood obesity. The two organizations supported outreach and collaborative activities to connect with vulnerable and underserved populations, and with cultural and linguistic minorities in ways that are appropriate to their cultures and circumstances. Finally, Kaiser Permanente and IOM educated policymakers on the issues, problems and potential solutions related to childhood obesity and overweight at the community and national levels.

Kaiser Permanente Care Management Institute

KFHP was chosen to participate in a collaborative sponsored by the Department of Health and Human Services' Agency for Healthcare Research and Quality (AHRQ) on racial and ethnic disparities. The three-year project entails a systematic analysis of its clinical outcome data and the identification of opportunities to address disparities. Upon identification of opportunities for improvement, KFHP will dedicate its full spectrum of clinical and patient outreach assets, from specific tools to support physicians in providing the best care to patients, to proven outreach strategies to multicultural populations, to the wholesale effort to achieve optimal care for all its members and to share these lessons with the broader health care community. Community Benefit staff, working with KFHP's Care Management Institute and Institute for Culturally Competent Care, is fully committed to the national objective of eliminating racial and ethnic disparities.

ATTACHMENT A

2005 NATIONAL DIRECT COMMUNITY BENEFIT INVESTMENT PROGRAM

The following charts summarize 2005 Community Benefit investments nationally for KFHP and for KFH. The investments in the community reflected in the charts are unaudited.

KAISER FOUNDATION HEALTH PLAN, INC. 94-1340523 December 31, 2005

STATEMENT PART III FORM 990, PART III - STATEMENT OF PROGRAM SERVICE ACCOMPLISHMENTS

Kaiser Foundation Health Plan, Inc. (Health Plan) is a California not-for-profit corporation organized for the public benefit and generally exempt from income tax under Internal Revenue Code Section 501(c)(3), and comparable state statutes, for the purpose of providing hospital based health and medical care services. The Internal Revenue Service made the initial determination of Health Plan's exempt status effective June 2, 1949, under Section 101(6) of the Internal Revenue Code of 1939. Such Section is the predecessor of Section 501(c)(3) of the Internal Revenue Code of 1986. Health Plan is listed in IRS Publication 78, Cumulative List of Organizations Exempt From Tax.

Health Plan shares a common board of Directors with Kaiser Foundation Hospitals (Hospitals) and three affiliated Health Plan subsidiaries. Two additional health plans with community based boards are affiliated with Health Plan. Health Plan is the principal controlling member of the five operating subsidiary health maintenance organizations in the integrated health care delivery system commonly known as "Kaiser Permanente." Each of these member organizations is also generally exempt from Federal income tax under the provisions of Internal Revenue Code Section 501(c)(3).

Kaiser Permanente is an integrated health care delivery system that in 2005 served over 8.4 million members in the following states; California, Hawaii, Oregon, Washington, Colorado, Georgia, Ohio, Maryland, Virginia and the District of Columbia It is the largest private prepaid health care program in the United States with approximately 148,000 employees and approximately 13,000 full-time equivalent physicians in the affiliated dedicated physicians practice groups.

Hospitals owns and operates hospitals in California, Hawaii, and Oregon. These hospitals provide services to all persons in the communities in which they are located. These services are made available to members of the community regardless of race, sex, religion, national origin or ability to pay. In addition, Hospitals provides for and/or arranges for hospital based care, extended care and home health care to the approximately 8.4 million individual members of Kaiser Permanente.

Emergency rooms located within hospital facilities owned and operated by Hospitals are available to the public on a non-discriminatory basis. The policy of Hospitals is that all persons who present themselves to an emergency room in a hospital owned and operated by Hospitals will be evaluated by an appropriately trained nurse or physician. Depending on the person's medical condition, they will be stabilized and referred or transported to an appropriate facility, or if medically appropriate, they will be admitted into the hospital for treatment.

Hospitals provides a financial assistance program to assist persons who cannot afford hospitalization and/or medical care. Hospitals also sponsors activities and programs to support the general health education and condition of the members of the communities in which the hospitals are located.

Please see the attachment, "Kaiser Permanente Community Benefit Report for Kaiser Foundation Health Plan, Inc. for 2005." This report will provide a description of activities conducted by Health Plan in the accomplishment of its exempt purposes and for the benefit of the community in which it conducts its activities.
